Shipping Being Warned To Remain In Neutral Waters In Mediterranean

By ROBERT G. NIXON
International News Service Staff Correspondent

WASHINGTON, Sept. 3.—The United States today took drastic steps to protect its shipping from harm in two acute danger spots on opposite sides of the world.

President Roosevelt, determined to take no risk of possible American involvement in foreign wars, personally approved the action.

The administration's attention was divided between the Sino-Japanese undeclared war and the new Mediterranean crisis.

In the China seas, now blockaded by Japan, this step was taken:

Admiral Harry E. Yarnell, commander-in-chief of the Asiatic squadron, ordered his warships to convoy all American vessels in the Shanghai area.

In the Mediterranean, where British and Russian steamers were torpedoed and a British destroyer was unsuccessfully attacked by a "phantom" submarine, the United States decided to:

Justice of the Peace F. M. Reynolds of Union township, who works his garden when he is not performing marriage ceremonies, is authority for the statement that the potato crop is not going to be as good as expected. Reynolds says that for some reason or other the potato tops are dying before their time, and there are not as many potatoes in a hill as there should be. With all the big rains this summer potato growers naturally expected a good crop, but the present outlook is somewhat disappointing.

The quiet village of New Bedford was thrown into a flutter of excitement this week, when Mrs. Helen Davis pushed James Dagan from the New Bedford coal mine into the village, a distance of half a mile in a wheelbarrow. Mrs. Davis weighs coal at the mine where Dagan worked, and they bet on the Louis-Farr prize fight on Monday night. Whichever lost was to do the wheelbarrow act, and Mrs. Davis lost. Dagan was willing to release her from paying the penalty, but Mrs. Davis is a plucky owman, the kind of which heroines is made. So she loaded Dagan into the wheelbarrow and proudly wheeled him into town, while the populace applauded.

Sinking Of Soviet Steamer Spurs Hunt For "Phantom Subs"

By KINGSBURY SMITH
International News Service Staff Correspondent

LONDON, Sept. 3.—Spurring widespread search by warships of four nations for the "phantom submarines" preying on neutral shipping in Mediterranean waters, sinking of the 3,100-ton Soviet cargo steamer Blagoev was disclosed today.

Dispatches from Athens said the freighter was sunk in the upper reaches of the Aegean Sea on Wednesday by a submersible allegedly flying the Spanish Nationalist flag.

The sunken Soviet steamer was first reported to have been the Molokiev, a vessel which appears in no shipping registries. It was believed here the original Molokiev reports were erroneous and that the Blagoev was the ship actually sunk.

Britain To Reinforce Fleet

In view of the continued depredations by mystery submarines, terrorizing neutral shipping in the Mediterranean, the British admiralty decided to carry out its fleet reinforcements there without further delay.

It was understood the admiralty ordered four destroyers detached from the western Mediterranean fleet and six from the home fleet

Pilot Dies As Air Races Open

Tragedy Marks Start Of Annual Air Races At Cleveland, O.

LEE MILES VICTIM OF DEATH PLUNGE

By LEON W. SHLOSS
International News Service Staff Correspondent

MUNICIPAL AIRPORT, Cleveland, O., Sept. 3.—Their brilliance dimmed by the tragic end of Lee Miles, popular 37-year-old Fort Worth, Tex., racing pilot, the 10th annual national air races opened today with the flying of America's premier transcontinental aerial competition, the Bendix trophy Los Angeles to Cleveland speed dash.

Miles, one-time flying instructor and personal pilot for Ann Harding, the moving picture actress, plunged to his death shortly after sundown yesterday as, disappointed at earlier performances of his trim green racer in qualifying trials, he lifted the speedy ship into the air again for a running flight. He had failed, at an average speed of 197 miles an hour, a short while previously, to reach the 225-mile-an-hour speed requisite for participation in all races scheduled during the four-day competition.

Roaring down the back stretch of the five-mile qualifying course at an estimated speed of 260 miles an hour, the left wing of the racer sheared off and fell to earth, followd by the plane, which exploded deafeningly at impact. Miles was rushed to a nearby hospital, but was pronounced dead on arrival. Witnesses of the mishap expressed the belief the Texan could not have survived the crash.

Nothing daunted by this specter of catastrophe which thus appeared, 50,000 persons poured into the airport early to be in on the finish of the Bendix, which carries prize awards totalling $25,000.

All eyes pointed anxiously westward as eight veteran pilots were "pouring on the coal" somewhere along the line from union air terminal, the takeoff point.

Fear Thousand Will Be Victims Over Labor Day

That is the number that will be killed in the water, on the road and in miscellaneous accidents from Saturday to Tuesday, R. L. Forney, chief statistician of the National Safety council estimated today.

Of the total, 100 will drown, 400 to 500 will be killed in auto accidents and similar number will meet death in a wide variety of mishaps.

A road map marked to Richmond, Va., was found in her room, leading to the belief she had planned to ride her bicycle to that city. Police believed she had abandoned the vehicle to complete her journey by hitch-hiking.

Gerson Returns From Long Tour Abroad

"Any one can have Europe, any or all of the countries, but from now on I'll take the United States exclusively," said Jack Gerson, well known jeweler today, who has just returned from a three months' tour of France, Germany, Russia, Lithuania, Poland and Latvia.

"I've been over before," said Mr. Gerson, "but never was I so glad to get back to the United States as I was this time. And unless it is absolutely necessary I don't expect to go back again. For me I'll take a diet of bread and water in the United State sooner than the best they can offer in Europe."

Mr. Gerson left New York on June 6 aboard the Queen Mary. Landing at Cherbourg he went to Paris, where he stayed for a time, then on to Berlin where he stayed five days.

"They treat Americans courteously in Germany," said Mr. Gerson, "but everywhere you go you see armed soldiers. Germany is hard pressed for raw materials. Nothing is wasted over there. Such things as nails and even paper are picked

Resume Garbage Collection Work

City Employes Return To Jobs This Morning After Wage Conferences

City garbage truck drivers and helpers who suspended operations Thursday because of a wage controversy, returned to work this morning following a conference yesterday afternoon with Safety Director J. M. Rice. The men decided to continue working under the same conditions, he reports.

When council raised wages of city employes recently, the rate for garbage truck drivers was made 55 cents an hour, and helpers 50 cents an hour. This was embodied in an ordinance adopted by council. Before this action the workers had asked for a $5.00 day with eight hours work.

For some time the men have worked 10 hours which at the new rate gave the helpers $5.00 a day and drivers, $5.50 a day. More recently the number of hours the men work was reduced. It was this, it was reported, that tended to bring on the suspension yesterday.

Manufacturer From England On Visit Here

Director Of Birmingham, England, Plant Visits Johnson Bronze Co. Plant

In the United States on a visit of inspection, John L. Hardy, managing director of the Hardy-Spicer company of Birmingham, England, today was the guest of P. J. Flaherty, president of the Johnson Bronze company.

The Hardy-Spicer company is a large concern in England, manufacturing universal joints and propellor shafts for automobiles. They have a plant in France and are interested in Toledo, O. By reason of the three plants the same product is made in three countries, identical as t specifications. In this way an interchange of parts is assured no matter in which country a customer needs service.

"We have learned a lot from the American manufacturers," said Mr. Hardy, "and I believe they have learned something from us. By the exchange of ideas between manufacturers of the two countries, both profit."

The automobile industry is showing a healthy increase in the British Isles, according to Mr. Hardy, and this despite the excess taxes levied. To own a car in England which is taxed $12.40 in the United States would call for $112.50 taxes. For an imperial gallon of gas, which is about 1 1-8 as large as an American gallon, the tax is 16 cents.

Deny Chinese Fliers Bombed Japanese Port

(International News Service)

TOKYO, Sept. 3.—Rumors that Chinese airmen flew across the Yellow Sea and bombed the important Japanese port of Kagoshima were officially denied today by the Japanese navy.

Authorities ascribed the rumors to "Chinese propaganda."

The foreign office announced that aerial maneuvers and anti-aircraft practice at Kagoshima were mistaken for a Chinese attack by a foreign resident, who advised friends in Shanghai of the supposed arrival of Nanking planes.

Similar reports that Nagasaki had been bombed by Chinese air raiders were said to have "emanated from Shanghai."

Japanese press dispatches charged 72 Soviet planes arrived on the Shanghai war front yesterday for use against the Japanese.

Completes 200 Mile Run From Poughkeepsie And Drops Anchor

By GEORGE DURNO
International News Service Staff Correspondent

ABOARD PRESS YACHT INDIAN, Fort Pond Bay, L. I., Sept. 3.—President Roosevelt and his fishing party completed a 200-mile run from Poughkeepsie this morning and dropped anchor in Fort Pond bay, near Montauk Point, the tip of Long Island.

Shortly after, a seaplane dropped alongside the White House yacht Potomac and Postal Inspector Herbert Theurer took aboard an official mail pouch from Washington.

James Roosevelt, informally attired in his pajamas, came to the rail and megaphoned over to the press yacht that the president was sending back the recess appointment of William Dawson of Minnesota to be minister to Uruguay. Dawson is a career diplomat.

Plans were for a day of fishing for channel bass and blues off Montauk Point with anchorage here overnight. The president, son James, WPA Administrator Harry Hopkins, White House Physician Ross T. McIntire and Captain Paul Bastedo, the naval aide, had ordered a small boat for late morning.

For despite the mercury's dizzy climb the celluloid collar would stay in the spot you put it and never move it's hot ninety two today.

Hunt Survivors Of Coastal Steamer

Captain Lost Among Others

Fourteen Are Known To Have Been Saved After Wreck

AIRPLANES HUNTING POSSIBLE SURVIVORS

(International News Service)

PENSACOLA, Fla., Sept. 3.—While coast guard cutters tossed in the stormy Gulf of Mexico, airplanes roared overhead today in a joint search for survivors of the ill-fated coastal steamer, Tarpon.

An unidentified woman was reported to be included in the eleven to seventeen on the boat still unaccounted for. There were twelve known survivors.

Among the dead were Capt. William G. Barrow and First Mate Henry Russell, whose bodies were recovered and brought here by the coast guard cutter Triton late last night.

It was still impossible today, nearly thirty hours after the boat plunged to the bottom, to obtain an accurate list of the dead and rescued. Owners of the freighter said there had been from twenty-five to thirty-one persons aboard.

Of these, the Triton saved nine, four of them white. In addition, two colored freight handlers reached shore thirty-five miles west of Panama City a few hours after another seaman staggered up the beach at Panama City and broke the news of the ship's sinking.

With the bodies of the captain and mate these survivors accounted for fourteen of those on board.

Rescue workers today clung to the hope that still others had managed to stay afloat and would yet be found alive. There was also the chance that a few more had been able to swim ashore but had landed at some remote place and not yet been reported safe.

The first word of the Tarpon's sinking was brought to the Panama city agent of the shipping firm.

Water dripping from his ragged clothes, his face cracked and raw from sun and briny spray, Aldey Baker, 25-year-old seaman stumbled into the office late yesterday afternoon.

"Have you heard the news?" he croaked.

Painfully then he told the story of the Tarpon battling mountainous waves that finally swamped the old hull and sent it to the bottom so swiftly that the crew didn't have time to launch a lifeboat.

When he was flung into the water Baker said he managed to grab a small piece of the wreckage and started paddling toward the shore about fifteen miles away. It took him twenty-six hours before he made land.

Thursday will be Pennsylvania Day and it is possible that the officials in charge of the affair may arrange Friday instead of Saturday as Steel Workers Day.

Herbert Peairs is managing director of the affair.

Early this morning decorators commenced erecting huge flags and other decorations along the Public Square and East Washington street. They have already attracted considerable attention. When all the flags and decorations are up they will have added considerable to the coming fete.

flotilla engaged in the non-intervention patrol around Spain's coast.

These 10 vessels were instructed to join in a submarine chasing unit that is determined to bring to light and sink the "mad dog" submersibles that sank two neutral merchant ships and attacked a British warship within a period of 48 hours.

Division To Sail

The 11th division of the sixth destroyer flotilla was ordered to sail from England today. This division, consisting of the Fury, Forester, Firedrake and Fortune, will join the pirate submarine hunt, replacing other destroyers which will be attached temporarily to the submarine chasing unit pending arrival of the 11th division in the Mediterranean.

Britain swung into action after the British tanker Woodford was sunk by the mysterious submarine which has terrorized neutral vessels in the Mediterranean for weeks.

At the same time, Soviet anger flared over the sinking of the Russian cargo ship Molskiev with the loss of one life. When the Woodford went to the bottom, one member of the crew was killed and six injured.

France took parallel action with England when three fighting ships arrived at Algiers to protect French merchantmen in the danger zone.

Italy, which in the past has jealously protested against British naval concentrations in the Mediterranean—Rome's "mare nostrum"—approved Britain's action in the strengthening her Mediterranean naval forces. This approval was forthcoming despite Spanish Loyalist hints that the raiding submarines are Italian-built and based at Italian-dominated ports.

GERSON RETURNS FROM LONG TOUR

off the street and converted into synthetic products. It is a country of synthetic products."

From Berlin Mr. Gerson went to Lithuania where he visited his mother, and from there to Latvia. Both these countries are prospering and show the effects of a national thrift. From Latvia he went to Russia.

Seem To Prosper

"Russia seems to be prospering," said Mr. Gerson. Everybody who can work is at work, but the prices they charge for things we consider ordinary articles is amazing. A pair of slippers will cost you $3.50, a pair of tennis shoes $7.50, a necktie $5, and suits of clothes are from $40 to $100. Ladies' dresses are hard to get at any price."

"The people don't answer questions. They are afraid to talk. There is a shortage of housing and the rule is one room apartments. Only the higher bracketed executives who are members of the Party are entitled to five roomed apartments."

"Children are taken care of by the state to a large extent, women working as well as men. The children are taken to the public day nurseries in the morning and left there all day while the parents are at work. I visited many industrial plants and in most of them they are using American made machinery. In Moscow there is a new subway that is an engineer's dream. The walls have 136 kinds of marble, indirect lighting is used and one can stay in it for hours admiring its beauty and utilitarian value. It was built by American engineers."

Huge War Fund

"While I was there the nation raised a war fund of a billion rubles which means about $200,000,000 in American money. The money was raised in ten days from the workers who seemed very willing to contribute."

"Everywhere in Russia there are spies of other nations. As a result no Russian will talk much for he in turn is liable to arrest by the OGPU (secret police.) One factory I visited was a factory for the blind where 270 blind people were working alongside of people with sight, making heavy motor parts. The blind people worked so skillfully that you could hardly detect their handicap."

"Russia is theatre conscious and you find the theatres filled most of the time. The government provides rest areas for the workers, and altogether the Russians seemed fairly well contented."

"Everywhere in Europe, however, there is fear. In Germany I talked to a woman whose husband was serving two years in jail. His crime was telling his wife where he worked for the government. In Russia people never know when their relatives will be taken off to jail and killed. The only way they know they are still alive is when they take cigarettes to the jail. If the jailer accepts the cigarettes the man in question is still alive. If he refuses them the man has been killed. There is no explanation."

"When the Normandie sailed up New York Bay," said Gerson, "it was the most satisfying sight I had seen for several months. People in the United States who are prone to criticize should go to Europe and see the countries I did. When they returned they would be boosting their own country for I know that there isn't any other country like it on the face of the earth."

U. S. TAKES STEPS TO PROTECT SHIPS IN DANGER AREAS

(Continued From Page One)

keep out of the danger zone. American warships were cautioned to stay in neutral waters in France and at Gibraltar unless urgent necessity required their presence at Spanish ports to evacuate refugee Americans.

Fears of grave international complications that have hovered over the Far East for weeks were transferred suddenly to the Mediterranean by the "mad dog" attacks on neutral shipping by the elusive, unidentified submarine.

Thus far, American ships have escaped molestation there but with a British and Russian freighter already victims of the marine pirate it was believed here that no shipping might be safe from attack.

Guarding against a possible repetition of the aerial bombing attack on the Liner President Hoover, in which one was killed and nine wounded by Shrapnel, Admiral Yarnell ordered his destroyers to convoy American vessels leaving Shanghai.

American steamers were again peremptorily commanded to give Shanghai danger zone a wide berth.

Acute anxiety was felt in official circles here lest the sinking of the British and Russian steamers might precipitate open European intervention in the year-old Spanish civil war.

RECORD HEAT IN PITTSBURGH

PITTSBURGH, Sept. 3.—Another day of stifling heat faced Pittsburghers today as the weatherman predicted the all-time high for this date would probably be broken.

The record was equalled yesterday when the official thermometer in the downtown area touched 94. "Continued warm" was the forecast for today.

GARDEN CLUB HEARS EXPERT DAHLIA TALK

Recognized as an authority on the subject, Mrs. W. C. Mechem gave a most instructive and unusually interesting talk on "Dahlias" at the September meeting Thursday afternoon of the Lawrence County Garden club in the home of Mrs. E. W. Greiner, Winter avenue.

Having with her in the neighborhood of 15 different varieties of dahlias secured from her own garden, florists and others, Mrs. Mechem displayed types of these various classes, discussing at length each group and its culture.

Some of the blooms were from 8 to 10 inches in diamter, gorgeous flowers, and there were even the tiny button kind and miniatures. The living room of the Greiner home was truly filled with summer beauty.

Mrs. B. H. Kannenberg, the president, presided at the business session, opening which members responded to roll call by naming September flowers they liked best and why.

Luncheon at 1 o'clock preceded the afternoon's profitable program. Sharing as guests were the mothers of both Mrs. Greiner and Mrs. Kannenberg, Mrs. Hall and Mrs. S. W. Cook of Pasadena, Cal.

The October meeting is dated for the 7th at the home of Mrs. B. K. Thacker, Knox avenue. "Home Gardens" will be the theme for this program, with Mrs. W. E. Ferver giving the talk.

MEN'S GARDEN CLUB SPONSORS CORN ROAST

High on a scenic knoll close by the farm home of Mr. and Mrs. S. A. Black, and Mr. and Mrs. Chas. Black, near East Brook, over 200 persons, members of the Men's Garden Club of New Castle and their guests, gathered last night to enjoy the second annual corn roast of the men's garden group.

When the corn roast was over, the 200 moved down illuminated pathways through brilliant floral displays to the lawn of the Black home for an evening of musical entertainment.

Scoring tops in Men's Garden club activities, the outdoor celebration attracted scores from New Castle, the East Brook vicinity and distant points. Everyone pronounced it successful—and gave thanks to the laborious garden club committee for the way the evening was arranged.

The musical program was followed by a display of fire-works.

Along a big table on the knoll overlooking the home the guests moved at 6 o'clock to receive delicious corn, wieners and all the trimmings—coffee and everything—from members of the serving committee. Then they took seats anywhere.

When the feast on the hill ended, orchestra music from down on the Black lawn sounded the call to the entertainment. There Nicholas R. Casillo, the garden club's president and general chairman for the evening, and J. W. Anderson, past president, were getting the program under way.

Billy Earl's Serenaders were playing when the program opened, and, after a brief program, were followed by two vocalists, Josephine and Wilma Wallace of Mt. Jackson. Then came numbers by the Lindner string quartet composed of Anne Maxine Kennedy, Nancy Robinson and Alice and Elizabeth Koski. James Bowman, of New Castle sang several solos. Prof. Charles G. Lindner presided.

Another feature consisted of songs and accordion numbers by Andy DeLorenzo and Adam Vincent.

Mid-way through the program, H. W. Johnston, of Leesburg station described the floral exhibit he had arranged. A beautiful zinnia display arranged by the Lawrence County Garden Forum, also won the admiration of guests. It had been arranged by Mrs. William Howley, Forum president.

Garden Forum members, members of all garden clubs in the county, were special guests for the evening, just as they have been at all the men's club corn roasts.

Perhaps one of the most striking features of the outing was the illuminated garden arrangement provided by the Pennsylvania Power Company. It will be up all this week for flower lovers to see.

Responsible for the party's success were Mr. and Mrs. S. A. Black, Mr. and Mrs. Charles Black, hosts and hostesses, Howard Butler, J. W. Anderson, Owen Penfield Fox, Chas. Giddings, Ben Campbell Charles Black, John Robinson, Paul Allen, Prof. Lindner and the general chairman, Mr. Casillo.

UNIFORMITY IN TRAFFIC LAWS

A REPORT of the Federal Bureau of Roads urging greater uniformity of traffic laws will be on the desks of United States senators when they return to Washington.

The report officially brings to the attention of the nation's highest legislative body a need which has been expressed for years by local authorities and the motoring public.

The wide variance in traffic regulations has long been an imposition on motorists. One traffic expert recently checked a trip from Washington to New York and found that, despite his caution, he broke upwards of 20 traffic laws.

The speed limits in many sections of the nation are left to the discretion of local governing bodies. These limits range from the laughable 10 miles per hour up. No motorist could be expected to observe all of them.

Pennsylvania has been in the forefront of efforts to make traffic laws uniform, but other states have not been so progressive. Perhaps the report to the senate will result in some comprehensive program to correct the traffic law evil and lift the stigma of law breaker from the shoulders of every motorist who ventures on an extensive tour.

OUR OLD FRIEND "R" CHECKS IN

Both the trusty calendar and those fascinating "R" signs hung in myriad restaurant windows attest to the toothsome fact that oysters are again in season. From a purely business standpoint this means much to the busy boys at Bivalve hastening down the bay to haul out the first oysters; to the shuckers put to work in uncountable oyster bars and to a whole industry having an investment running into millions. All prospects point to the best haul in many years.

To your oyster fancier, however, this aspect of the new season denotes very little. To him the arrival of September 1 simply means that after a five-month interval he is able to obtain again his favorite shellfish, as he likes them: tucked with hard crackers in a creamy, buttergolden stew; crisply, delicately fried; on the half-shell, cool as their own sea-bed, and brushed with lemon; barbecued with bacon or bursting out of a fragrant pie.

The summer season has its sea-food in ample variety, its clams, its lobsters, its crabs, its shrimp, its scallops, its fish, even its oysters of a sort. But all these must retire to the rear ranks now to make way for the fresh oysters of the new season, "clothes brushed, faces washed," waiting to tempt the appetite of men.

INTERESTING ADVERTISEMENTS

Advertising is a mirror of the times. It is the harbinger of all seasons. On its present extensive scale, advertising tells each half of the world how the other half lives.

A change of seasons is at hand. What will the new season be? Newspaper advertising foretells that it will be the season of radio, new household furnishings, books and wearing apparel appropriate to the period of transition between the two extremes of climates.

Late summer and early autumn turn the American mind to thoughts of long winter evenings and home. The automobile has emptied the front porches of America but the home fireside still calls when winter winds blow and the radio is at its best. The great quantity of radio and furniture advertising completely refutes the jeremiad about the unloosing of the home ties.

Current advertising reflects another change recent years have wrought in the American scene. The predominance of automobile advertising is explained by the custom of many car owners to buy the new car in the late summer or early fall when new models are making their debut. It is to autumn that one looks for perfect motoring days, and the temperate days of September and October seem made especially for breaking in new motors.

Seasonal buying is as natural and irresistible as the changing of the seasons. Before merchandising and advertising had been developed to their present state of near-perfection, a bereft populace avidly poured over the pages of the almanac for the pills and potions of the season. Today it has something better to shop for in the advertising columns.

WALKING TO SCHOOL

Along with the tradition of the one-room schoolhouse has gone the pastoral scene of children trudging home along the quiet road. Apparently concrete highways in Lawrence county, as in many other areas, are ending the gentle tinklings of dinner pails; and more and more children are going to school by bus.

This is in the interest of progress, and should do no great injury to the poetic ideal. The chief beneficiaries, however, should be the successful men from the one-room schoolhouses of forty or fifty years ago. They may now make good their claim to origin in a harder age. For years that two-mile walk to school "thru mud and storm" has stood as the boast of men of growing waistlines. It has been the next thing to claiming a log-cabin ancestry. The man at the desk may look soft; but scratch the surface and you will find a rugged pioneer who used to walk to school.

The only difficulty with this hard ideal of the past has been the fact that children still walked to country schools without thinking much about it. In all but the worst weather the two-mile jaunt is an adventure. Battlements are to be taken on the next hill. Strange tracks are to be discovered in the mud of the little stream. More children join at the crossroads, particularly the little girl in the white coat.

The boy in corduroy shows how far he can throw. She says she don't care. He drives birds from the telephone wires with a slingshot. The tall boy in overalls wants to "rassle." Shouts, laughter, running and stopping. The big family from down on the creek comes trudging up the road from the other direction, strung out for a quarter of a mile, overalls and long hair, pink gingham and pigtails, and a distinct suggestion of a battle with a skunk.

No, if we are to be honest walking to school never was very difficult. When there were chores to be done at home, it put off the time by nearly an hour. But the buses definitely may establish the old walking trip as the last frontier of pioneering hardship in a stronger age.

The Parent Problem

TYPEWRITER HELPS PUPIL

I have no commercial interest in any typwriter. But I do have a very deep interest in the typewriter as an educational tool.

For each of my older two children while in college a typewriter was provided as standard equipment. Throughout their public school life all our children have had access to a typewrite in the home. All learned to "play" on it, learned their alphabet, learned to print words for fun as they would have us spell out these words for them, even before entering school.

For the college student today, a typewriter is about as necessary as a fountain pen. He could afford to deny himself many other things, if necessary, in order to have this very needful tool. All else being equal, that student in college or high school who prepares outside papers and notes with a typewriter will receive higher grades than if he wrote them in long land. Experiments have demonstrated that the same college paper will be graded higher by the teacher when typed than when written in script. Besides, the added neatness afforded through the use of a typewriter would seem to contribute to more orderly thinking, and a higher level of accuracy, by the student.

Once the college student and his parents realize the value of a typewriter, ways will be found by nearly every student to include it in his essential college equipment.

Helps In Spelling.

Frequently in this column I have pointed out the value of the typewriter as an aid to the learning of reading and spelling. The child who has trouble with spelling will find it to his advantage to print his spelling words slowly and carefully on the typewriter. Having so printed them, he will choose to compare the words typed with the original, getting good motivated practice in learning to spell these words.

Many children with trouble in reading and spelling will confuse certain letters of the alphabet and an occasional child is a mirror writer. I can think of no better way to help such children than by guiding them in the use of a typewriter.

The poor reader may very eagerly dictate an original story for his father or mother to type. Then, because it is his own story, he will want to read it, getting excellent practice in the reading art.

WORKING CHARM TO DEATH

You Know them—those charming people. Those ladies who have but to smile to get what they want. Those lads who have "fine personalities" and get things easily, too.

I'm leary of them. I may like them, but I'm suspicious of them. I steel myself against them, put on battle armor and try to be tough when they come my way. They sell me things. They convince me of things I do not wish to believe. They twist me 'round their little fingers—and I know they do—and I don't like it—and I hate them while I love them.

They've got that fatal gift, those lads and lassies. The grace of the thoroughbred horse, the sheen of the humming bird, the disarming softness of the gentle fawn—all things lovely and persuasive are in them and they are dangerous. They can lead their fellows up or they can lead them down, lead them straight along the road or off the path into sloughs or swamps. So I'm scared of them.

And why should I or anybody else be afraid of "charm" or a "fine personality"? Perhaps it's sour grapes. Perhaps it's because I've never in all my life been able to get anybody to do anything he didn't want to do—and make him like it.

But I think I fear those charming, pleasant, decorative and delightful people because they get things too easily. They get them without working for them. They've always gotten them that way, from the time when they were little boys and girls who grinned or smiled and won all hearts and were showered with praise and gifts—and never needed to develop character and earn what they enjoyed.

And that sort of childhood can be bad for people. It weakens a part of them that should be sturdy and rugged. It makes nice parasites of them, makes bunco-men of them, and they can't help it and they don't know it. Eventually they work their charm and personality to death; they treat the world as their oyster; they think others exist only to serve them.

They are not all like that, I know it as well as you do. But some of them are, and that's a pity. Because they are tempted to use their charm for trivial and selfish ends—and what's worse, they get by with it!

Origin Of The Constitution.
Articles Of Confederation.
Various Plans Are Offered.

BY LESLIE EICHEL
Central Press Columnist

THE CONSTITUTIONAL convent[illegible] in 1787, which conceived the present American constitution, itself scrapped the then constitution—the Articles of the Confederation—because the Articles no longer suited. And, even though the convention was composed of conservatives, it found itself criticized because of the change.

An excellent description is given in "The Rise of the American Civilization", by Prof. Charles A. Beard and Mary R. Beard—a volume that it would pay all citizens to read.

"The congress which had called the members of the constitutional convention together and the states that had selected them had simply authorized them to propose amendments to the existing constitutional instrument," Professor and Mrs. Beard point out.

"Nevertheless such amendments, according to the same instructions, were to make the existing Articles 'adequate to the exigencies of government and the preservation of the Union.'

"With good reason an agile mind could take either horn of the dilemma. Paterson of New Jersey, speaking for the small states in danger of losing their equal and swollen authority, argued that 'if the confederacy is radically wrong, let us return to our states and obtain larger powers, not assume them ourselves.' Randolph of Virginia retored that he was 'scrupulous on the point of power'. Hamilton agreed; to propose any plan not adequate to the exigencies of union because it was not clearly within their instructions, he thought would be to sacrifice the end to the means."

* * *

LIBERAL VIEW WINS

"Having come to accomplish results rather than to chop logic the majority of the members accepted the liberal view of the matter and refused to be bound by the letter of the existing law. They did not amend the Articles of Confederation; they cast that instrument aside and drafted a fresh plan of government.

"Nor did they merely send the new document to the congress and then to the state legislatures for approval; on the contrary, they appealed over the heads of these authorities to the voters of the states for a ratification of their revolutionary work.

"Finally, declining to obey the clause of the Articles which required unanimous approval for every amendment, they frankly proposed that the new system of government should go into effect when sanctioned by nine of the 13 states, leaving the others out in the cold under the wreck of the existing legal order, in case they refused to ratify."

* * *

TORN BY PASSIONS

We quote another passage from the complete story in "The Rise of American Civilization":

"It was with reference to the form of government capable of attaining their grand objects and the respective weight to be assigned to the leading interests of the country in the balanced machine that the most acute diversity of opinion developed. In that relation the records disclose a strange story.

"They do not portray a group of inspired individuals convinced in advance that only one project of government could accomplish the general purposes they had clearly in mind.

"Instead of a disciplined crew under a stern and bright-eyed captain steering the ship of state by the north star, we see a wrangling body of thoughtful, experienced and capable men, but harassed men, torn by interests, prejudices, and passions, drifting one day in one direction and the next in another, deciding long debated issues, opening them again, altering their previous views, and adopting novel solutions."

* * *

"STARTLING LESSON"

"It is certainly a startling lesson in the fallibility of statesmen to compare the authentic plans laid before the convention in the opening days with the finished constitution published at the close.

"For example, the Virginia scheme presented by Randolph provided for a congress of two houses composed of members apportioned among the states on the basis of wealth or free white population. This congress was to elect the executive—either a single person or a group of men; and to exercise general legislative powers, including that of annulling state laws contrary to the constitution.

"The curious cannot help but wonder what would have been the fate of the American Union if that plan had been adopted. . . .

"Randolph's plan had hardly been read when it was condemned by Paterson of New Jersey in the name of the small states calling for a legislature of a single house in which commonwealths, not people, were to be represented and all states given an equal vote. Neither plan was adopted."

A bit more tomorrow.

The World AND THE Mud Puddles

A INEXORABLE LAW

The old fallacy of "soaking the rich" to finance government activities is nowhere more thoroughly exploded than in the record of the surtax on incomes for the years 1916 to 1920, inclusive, when surtax rates on incomes rose from 13 to 65 per cent. As rates rose, taxable incomes in the higher brackets steadily diminished, in spite of the fact that the total national net income registered rapid annual gains. For example, in 1916, total net income was $6,299,000,000, while individual net incomes over $300,000 amounted to $998,000,000, and the number of tax returns filed by individuals in the $300,000 bracket numbered 1,296. Contrast this with figures for 1920, when surtaxes had jumped to 65 per cent. Total net income for the nation in the latter year amounted to $23,736,000,000, yet individual net incomes in excess of $300,000 amounted to only $246,000,000, and returns filed in the $300,000 bracket numbered only 395.

Today the peak surtax rate is 75 per cent, and "surprise" is voiced by government officials at the "disappointing" results in income tax returns. Disregarded is the fact that excessive taxation drives capital into tax-exempt government bonds. Likewise disregarded is the fact that when government "confiscates" two-thirds of four-fifths of personal income above certain amounts, the incentive to save and earn money disappears.

Someday public officials will realize that there is one "law" that cannot be repealed or legislated out of existence: The law of diminishing returns.

THE COST

"How much?" he asked, and shook his head.
"A cheaper hat will fit my head."

"How much?" he asked, and turned away.
"For gloves that is too much to pay."

"How much?" he asked, and put it by.
"It costs too much," was his reply.

'Twas merely business good he thought
To know the price before he bought.

Lest money wasted be or lost
He carefully considered cost.

And many a salesman heard him say:
"That much I can't afford to pay."

But when temptation beckoned him
To gratify some passing whim

And offered shame in pleasure's guise
This business man so shrewed and wise

Good judgment to the four winds tossed
And failed to ask about the cost.

TODAY Is The Day

FRIDAY, SEPT. 3

Once Upon Sept. 3rd—Seven years after its declared independence, the United States became a nation, Sept. 3, 1783. Benjamin Franklin, John Jay, John Adams and David Hartley, the latter for Great Britain, signed at Paris the definite treaty by which His Majesty King George II recognized the boundaries and fishing rights of his erstwhile subjects. Just before he signed, Franklin put on fine clothes he had laid away 10 years before, in accordance with a vow not to indulge in pleasure till the Colonies were free.

While the peace negotiations were going on, the Americans were so strapped for funds that Franklin had to walk from Paris to Versailles (12 miles) to confer with the French king.

Exactly 11 years later to the day, Sept. 3, 1794, there was civil war in the United States, and the British minister in Washington confidently expected the new nation to break up.

Militia of New Jersey, Maryland and Virginia—13,000 men—had to be called out to quell the uprisings in western Pennsylvania fomented by the first federal tax to be imposed, that on whisky. The militiamen did not care for the assignment, and said so. The U. S. had disbanded its army, had no regulars to deal with the situation.

Gov. Mifflin had defied President Washington and refused to call out the Pennsylvania militia which, perhaps, was just as well, for at Pittsburgh, the local militia went over to the side of the rebels. There buildings were burned, mails robbed, government officials beaten. One offi-

Seek To Block Third Term Boom

Senator Holt To Put Senators On Record On Third Term Idea

VOTE WAS TAKEN IN COOLEDGE'S TIME

By ROBERT HUMPHREYS
International News Service Staff Correspondent

WASHINGTON, Sept. 3.—Anti-New Deal Democrats today revealed they hope to block the third-term boom for President Roosevelt with a senate resolution opposing it.

Senator Rush Holt (D) of West Virginia, announced he would offer the resolution in the next session of congress in language identical with one sponsored by senator LaFollette (P) Wisconsin, in 1928, which was approved by the senate to snuff out a third-term drive for President Coolidge.

Pointing out that 17 Democratic members who supported the LaFollette resolution are still in the senate, a majority of them in the role of New Deal leaders, Holt declared he was going "to give them the opportunity to vote the same way again."

Senators On "Spot"

As named by Holt, they were senators Barkley of Kentucky, present majority leader; Pittman of Nevada, present president pro tempore; Harrison of Mississippi; Glass of Virginia; McKellar of Tennessee; Wagner of New York; Ashurst of Arizona; Wheeler of Montana; Tydings of Maryland; Thomas of Oklahoma; Smith of South Carolina; Sheppard of Texas; Copeland of New York; Black of Alabama; Gerry of Rhode Island; King of Utah and Hayden of Arizona.

"It would certainly be surprising if a number of them would rally under senator Ashurst's manner of inconsistency," Holt observed.

While declining to comment on Holt's proposal two conservative Democratic members of the senate, George of Georgia and Tydings of Maryland, professed to see little foundation for the third-term talk revived this week by governors Frank Murphy of Michigan and George Earle of Pennsylvania.

"No Stock In Talk"

George said:

"I do not assume the president will seek the nomination again."

Tydings said:

"I put no stock in the third-term talk."

Holt's resolution, similar to one offered by senator Vandenbert (R) Michigan, shortly before adjournment of congress two weeks ago, would declare it to be the sense of the senate that a third term would be "unwise, unpatriotic and fraught with peril of our free institutions."

Should the senate approve either measure it would be the third time in history that congress has taken such action. In 1875 the house by a 234-18 vote adopted a resolution to block a 3rd term boom for President Grant, while history repeated itself in 1928 after President Coolidge's famed "I do not choose to run" statement left the politicals guessing.

LaFollette, in sponsoring his 1928 resolution, said:

"Once the precedent has been broken that no one shall hold the office of president for more than eight years, it will be difficult, if not impossible, to prevent reelections for twelve, sixteen and perhaps twenty years.

Other members supporting the LaFollette resolution who are still in the senate included four Republicans: Capper of Kansas, Borah of Idaho, Frazier, North Dakota and Nye, South Dakota, and one Farmer-Laborite, Shipstead of Minnesota.

Hints On Etiquette

For light supper following an evening bridge, cold meats, sandwiches, salads, relishes, ices and sweets are customary.

"What does Black stand for?" demanded one Senator. "Because he is waiting for a place on the Bench," another explained. So they gave it to him.

1867—John L. Helm was governor of Kentucky without knowing it! He was sworn in while ill and unconscious, in his home at Elizabethtown. He did five days later.

1930—2,000 were killed, $40,000,000 property damage done by a hurricane in Santo Domingo. The anniversary of the catastrophe is observed as a holiday.

1936—Speed record between N. Y. and England was set by Dick Merrill, flying with Harry Richman as passenger b.y averaging 175 m. p. h.

Air Racers Roar Toward Cleveland

Aviatrix Leads Way In Race From West Coast To Cleveland

(International News Service)

BURBANK, Cal., Sept. 3.—Led by Jacqueline Cochran, only aviatrix in the $25,000 classic, the Bendix trophy air racers roared eastward today on a 1,800-mile dash to Cleveland.

One crack-up marred the getaway.

From the moment he started down the field, R. E. Perlick of Glendale, Calif., had difficulty controlling his powerful plane. It wavered and as he attempted to get into the air it swung half around, the left wing striking the ground. The plane was badly damaged but Perlick escaped injury.

After his mechanics worked for hours to repair his accidentally damaged monoplane, speediest of all the entries, Roscoe Turner was forced to withdraw as his time to take off neared.

Turner, winner of the famous classic in 1933, said it was doubtful if his ship could be repaired in time to fly it to the National Air Races in Cleveland.

This ultimatum was left with county commissioners today by company attorneys.

Because of decisions handed down by the supreme court following Pittsburgh railroad strike riots in 1877 counties are held responsible for property damage done by strike mobs.

Electric Wire Kills Man, Wife

Beckley Man Trying To Remove Wire Which Fell Across Aerial

(International News Service)

CHARLESTON, W. Va., Sept. 3.—Two persons, a husband and wife, were killed at Beckley, near here, today when they touched an electric wire carrying 4,400 volts.

"Don't touch that wire; It will kill you," Mrs. Clifford Statzer, 33, screamed at her 38-year-old miner husband as he prepared to remove a high voltage wire, which fell across the family's radio aerial.

She spoke too late. Statzer touched the wire and died instantly.

Mrs. Statzer put down an infant she was holding and rushed to pull her husband from the electrical contact. She was killed also when the current surged through his body.

'Y' Pool Popularity Soars With Mercury

Attendance Swells As Hot Spell Stays On; Young, Old Swim

The Y. M. C. A. swimming pool, popular with young and old, continued today to lure perspiring scores into its cool waters.

Activities Director Henry T. MacNicholas reported that 134 men and boys found the pool a welcome retreat Wednesday and that a number almost as great used it yesterday. Today loomed as another big attendance day.

"Do they like to swim this weather?" MacNicholas said, and he answered "and how!"

Recent improvements at the pool have increased its popularity. The swimming pool itself is much cooler under a new ventilating system installed this summer.

Boys use the pool mornings and men use it in the afternoons.

Stiff Sentences For Young Gang

Pittsburgh "Strong Arm" Gang Range In Ages From 17 To 20 Years

(International News Service)

PITTSBURGH, Sept. 3.—Stiff sentences were begun today by six members of a local 'strong arm" gang ranging in ages from 17 to 20 years who pleaded guilty of complicity in 55 robbery and larceny charges before Judge Elder W. Marshall in criminal court here.

Police termed the gang "the most ruthless and rottenest mob ever to contaminate a police cell.

Two of the gang, who pleaded guilty to 24 charges, were sentenced to 10 to 20 years in the penitentiary. Another, who pleaded guilty to 31 charges, was committed to Huntingdon Reformatory. Another was sent to Morganza and two others were paroled for three years. About 100 men and women victims appeared against the defendants.

SHELL DROPS ON HEADQUARTERS OF U. S. MARINES

shell scored a direct hit on the deck of a large Japanese troop ship in the Whangpoo river. Casualties aboard the vessel were not immediately determined.

Other Chinese shells exploded all around the Japanese flagship Idzumo, but the famous warship was not hit.

The United States flagship was forced to move from midstream to the edge of the bund, itself scene of shell explosions, owing to the intense heat of fire started by shells which crashed into houses and buildings at Pootung Point.

The hostilities continued until nightfall. Shells continued to fall in the international area, two landing in Bubbling Well road near the Italian consulate.

Six Japanese airplanes soared over the battle scarred city at dusk, while Chinese snipers at Pootung Point engaged in a machine-gun duel with two boatloads of Japanese sailors in the river.

As missiles crashed into the river, sending up streams of water as they exploded, a Chinese tugboat near the Idzumo was nearly demolished by an artillery shell. It burned to the waters edge.

Japanese Consulate Hit

The Japanese consulate, which suffered two direct hits from Chinese batteries earlier in the day again was struck. Four occupants were hurt by the latest explosion, bringing the total wounded in the consulate to eight. Two Japanese occupants of the building were seriously wounded.

The Japanese consul general and his staff refused to evacuate, however.

As the roaring gun battle continued, a shell struck the corner of Bubbling Well and Yates roads. Fourteen Chinese were injured.

From Pootung, Chinese machine gunners sent a hail of lead across the water at nearby Japanese warships.

Anti-aircraft shrapnel fired at Japanese airplanes flying over the international settlement rained down on the compounded of the race course and on the recreation ground in the very heart of the foreign district.

A foreign volunteer, the second to be hit in today's bombardment, was wounded. At the race course, two Chinese grooms were wounded, one seriously.

Fire Blasts Into City

Five Japanese warships moved up the Whangpoo river and joined the Idzumo and the Japanese destroyer No. 16, from whose guns a deadly fire blasted into native quarters of the city.

These ships directed a heavy barrage at Chinese positions in Pootung. Scores of junks anchored off Pootung were reduced to flames.

Some of these junks, with flames shooting high in the air, drifted aimlessly about the river, forcing Japanese transport ships to move to the mouth of the river for safety.

Chinese shells steadily pounded Japanese military posts as the Japanese occupied a number of areas in the foreign settlement.

Observers expressed belief today's unexpected battle would upset all plans for a Japanese offensive on the city from Woosung.

A continuous hail of shrapnel fell on the northern section of Kiangse road near the American consulate. Another missile fell in Peking road, near the bund, in the center of the foreign section's business district.

At the height of the artillery duel, shells screamed over the Augusta, flagship of the United States Asiatic fleet. British and French warships likewise were endangered.

The British consulate was sprayed with shrapnel when a shell burst in the world-famous bund only 100 yards distant. Many offices along the bund were evacuated as their occupants rushed to places of safety.

RESUME GARBAGE COLLECTION WORK

(Continued From Page One)

er, acting chairman, the following concerning the situation, is presented today:

"The City Sanitation Collection Department takes exception to a statement that they were asking for expectation of wages for time not worked. This they claim is absolutely false.

"The reason for the recent decrease in wages, which caused the controversy, the organization feels is due to the conformation of the 44 Hour Law.

"It should be made clear that city council expects the same number of men to do the same amount of work in less time. It should be understood that this can only be done by speeding up process to the limit, thus rushing the activity of this department considerably.

"The organization also believes that the collection of garbage disposal cannot be done on the hourly rate, and the department firmly advocates the daily wage rate in regard to their work."

Claim Japanese Forces Retiring

(International News Service)

LONDON, Sept. 3. — On the basis of wireless advices from Shanghai, the Chinese embassy announced today that the Japanese, having suffered heavy casualties in today's fighting, were retiring toward the coast.

Lincoln School Reunion Plans Are Completed

Expect Record Attendance At Annual Gathering In School September 10

COMMITTEES ARE ANNOUNCED

Plans for the annual reunion of the old Lincoln school, which will bring together former pupils and teachers during the period from 1880 and 1900 are completed and the committees in charge of the reunion are arranging the final details for the gathering which will take place in the Lincoln school building Friday evening, September 10, at 7 o'clock.

The reunion, which has become an established institution during the past few years, brings together a great number of citizens from the community and from a distance, who gather together to renew old acquaintances. It is an event which is looked forward to with eagerness by the boys and girls who went there before the turn of the century, and the interest which has been displayed this year indicates that the attendance will undoubtedly be the largest of any of the reunions which have been held.

The officers and committees who are handling the arrangements for the gathering are as follows:

Are Paid Handsome Salaries To Ballyhoo Particular Brands Of Whiskey

HOW CHILDREN OF RICH EXIST

By O. O. McINTYRE

NEW YORK, Sept. 3.—Thoughts while strolling: No one tops George White in giving a straw hat that certain tilt. Triumph of a voice affectation: Katharine Hepburn. Most galloping of the pianists: Johnny Green. Everybody is tired of radio comedians et al plugging themselves.

O. O. McIntyre

Add beautiful children: The Irving Berlin daughters. The town's most furious cigaret chain smoker: Mike Jacobs, new boss at the Garden. Where the suckers never get an even break. Those gyp auction jewelery rooms. And where, oh, where are the police?

Look alikes: Billy B. Van and Jimmy Gleason. Jerome Kern's tunes always have pure melody instead of the usual oom-pah-pah. Nobody can twitter like Alice Brady. Wendy Barrie is making Beatrice Lillie look to her comic laurels. What's become of Helen Morgan?

With feathered head-dress Lee Shubert would make a fine looking Indian. Herbert Swope seems to arrive everywhere in the last spurt of a foot-race. All the dance halls are featuring the Big Apple contests. That's the new step out of the south.

The lightest fellow on his feet for his size: Albert Keller of the Ritz. What a handsome villain William Rhinelander Stewart would have made in the old, ten, twent and thert. Wonder what the Duke of Windsor thinks about things by now!

Many society lasses became carreerists singing in the night clubs. Still others picked up pin money occupying seats at the ringside in the newly opened cafes and supper places as sort of decoys. But the newest wrinkle is the liquor salesgirl who acts much in the same fashion of the wine agent in the Manhy Chappelle days. She is paid a commission and given a generous expense account to organize parties and see that only certain brands are served. One brand of Scotch whisgey became a best seller as the result of a dozen or so society girls booming it in this manner. Still another French aperitif, little known outside of Paris, is being popularized the same way. Ladies must live.

Latest for poor little rich children: The portrait doll. A picture of the fortunate child is given the doll maker and the head is modeled in replica. In many cases original hair of the owner is used. Complete, $65 and upward. There is one reputedly made for a grown up Hollywood star that cost $500.

The generosity of doting rich parents is rather bewildering to one who considered grandma's reach into her side pocket peau de soie for her snap purse to bestow a nickel—instead of the usual penny—top munificence. There is the boy, 17, for instance, sent to Europe this summer alone for a six weeks' visit. All his preliminary expenses, ship passage, etc. were paid for and on the day of his sailing he was given $5,000 worth of traveler's checks.

Then those sprigs who immediately after graduation from college, are established in totsy bachelor apartments and dine with the family once a week. They have their motor car, combination butler and valet and charge accounts everywhere. They don't, of course, show much interest in careers, but the great majority turn out quite decently. Indeed, there are two conspicuous cases of young men given such adavntages who tired of it after a few years, plunged into the industrial world and are now established figures. Yet to my notion parents take an awful chance.

One of those Noisy Nuisances was loose in a quiet class A restaurant last night. She was just up from one of the Hamptons, tanned to a sepia and hell-bent to be heard and seen. First jabbering shrilly in French to the waiter captain so all could hear, then waving and hallooing across the room to this one and that and laughing in the upper register. We shouldn't let such didoes throw us, but we've reached the crochety age where they do.

The more abundant life: Ryley Cooper has disovered the most contented man in the world in Sebring, Fla. He is able to look through the Sears Roebuck catalog and not want a thing in it.

GARDNER

Mr. and Mrs. Russell H. Johnston of Gardner had a visit last Thursday and Friday from the latter's brother and wife, Mr. and Mrs. Paul McFerren of Canton, O. Mrs. Johnston was once a teacher at East Palestine, and one of her fellow teachers, Miss Mildred McKnight, came and spent last week at the Johnston home.

Mr. and Mrs. Roy Shaffer of Gardner were called to Oil City last week to the funeral of their nephew, Robert Schubert, 22 years of age.

Mr. and Mrs. August Arnold of the old Pittsburgh road and the family of their daughter, Mr. and Mrs. Elmer Bigley, Elmer and James all went to visit Joseph Arnold at Geneva, O.

Mr. and Mrs. A. H. Wade of the Butler road had as their guests Mr. and Mrs. Kenneth Wade of Lancaster and Mrs. Ella Wade of Philadelphia.

Mr. and Mrs. John J. King of Shenango Stop and the family of their daughter, Mr. and Mrs. Millikin and daughter Betty of New Castle took a trip to visit relatives near Meadville. Mrs. King's brother, Mr. Groetsinger of Pittsburgh, called the first of the week.

Mr. and Mrs. Charlie McCandless of the Ellwood road had a visit from the family of their brother, Mr. and Mrs. Will English and children of Harlansburg, and Mr. and Mrs. J. F. Houk and Miss Bertie English, who live near Princeton. Mr. McCandless is a rural carrier on route six and some of his fellow workers asked permission to have a corn and wiener roast at the McCandless home in honor of Watty Matthews, a former carrier, who has lately come from California and who expects to soon go west again. Mr. and Mrs Ralph Copper and family were among the 50 or more guests. Mr. Matthews played his musical saw and some of the ladies played the piano.

The members of the Gardner Sunday school held a picnic at Stoughton's Beach on Tuesday. Mrs. Harry Brunton is the superintendent and Mrs. Anderson is a teacher. Mrs. Harry Gibson, Mrs. Clifford Robison and Mr. and Mrs. Derr all took their cars and Mr. Anderson also helped with the transportation.

Auto Victims Leave Hospital

Mr. And Mrs. William Clark, Of Detroit, Return To Homes Thursday

Mr. and Mrs. William Clark, of 2509 St. Clair avenue, Detroit, who were injured when their automobile involved in a collision with the car of Mr. and Mrs. Jacques Delmar, also of Detroit, near Swan Lake, on Route 422, last week, left the Jameson Memorial hospital Thursday, and returned to their homes.

Mrs. Clark has not recovered entirely from the injuries she received in the crash, and it was necessary to take her to the train in an ambulance.

It will be remembered, that Mr. and Mrs. Clark were enroute home from a honeymoon trip, when their car was involved in the collision here.

Mr. Delmar, and their daughter Ruth, were discharged from treatment at the hospital several days ago, but Mrs. Delmar is still in the hospital. Her condition was reported as good and she is making satisfactory improvement, it was stated.

Will Close C. C. C. Camps In Beaver

Pymatuning Reservoir Camp Among Those That Are To Be Continued

By ARTHUR C. WIMER
(Special Washington Correspondent, New Castle News)

WASHINGTON, D. C., Sept. 3.—Emergency conservation officials plan to close one of the CCC camps at Beaver on October 1, it was learned in congressional circles today.

On that date a goodly number of camps in all sections of the nation will be abandoned. This is being done to slash federal expenditures. Exact details of the retrenchment plan will not be announced for several days, but it has been definitely determined that one of the two Beaver camps will be discontinued.

The Pymatuning reservoir camp will be continued in operation, informed members of congress say.

Several camps in the Keystone state will be closed. The Pennsylvania enlistment of new enrollees will be correspondingly cut. Congressman are vigorously objecting to this curtailment but Robert Fechner, head of conservation activities, has refused to revise his curtailment program.

In other words, wealth makes people wicked and anti-social and hateful, and we'd all like to get rich.

Security Card Must Be Held By Worker To Share Benefits

More than 65,000 Pennsylvania workers, some of them New Castle residents, for whom employers have made contributions may lose unemployment compensation benefits next year because of failure to obtain a social security number, Secretary of Labor and Industry Ralph M. Bashore declared in Harrisburg today.

He advised such employes to get their social security numbers at once and report it to their employers or incur the risk of being ineligible for unemployment compensation payments after January 1, 1938. The figures submitted to the division of Unemployment Compensation and Employment Service by the Social Security Board revealed that 2,517,371 social security numbers have been issued in Pennsylvania. This is 65,511 less than the total of 2,583,582 employes' records posted by the division. Many of these are believed to be workers over 65 who are covered by unemployment compensation but not by old age benefits.

New Castle Man Hurt In Accident

YOUNGSTOWN, O., Sept. 3—Carl Rhinehart, of New Castle, is in St. Elizabeth's hospital here, suffering from burns sustained in an auto accident on the New Castle-Youngstown highway, near Coitsville, late last night.

Which is the gentler sex? Men despise a man who is a tyrant to his wife, but you never hear women criticising a woman for bossing her husband.

"NO MEDICINE EVER HELPED ME LIKE VENDOL DID", SHE SAYS

Youngstown Lady Says In One Week Was Feeling Greatly Improved And Since Taking Three Bottles Constipation Is Completely Relieved, Never Has Gas In Stomach Nor Feels Dizzy And Enjoys Sound, Restful Sleep.

MRS. G. MOLDOVAN

Convincing proof of the great merit of Vendol is found daily in the large number of public statements given by men and women of this city and nearby towns, telling how this excellent root and herb medicine has helped them. Today we have the interesting experience told by Mrs. G. Moldovan, who resides on route three, Youngstown, Ohio, who says:

"For a long time I had been a victim of constipation which made me feel that everything was wrong with me. My food fermented and filled me with gas, acid risings came up in my throat, felt like there was a lump in my stomach and I suffered a lot from palpitation and short breath.

"I'd have pains in my arms and the muscles of my legs and my back ached nearly all the time. My nerves were so unstrung that any little noise would make me jump, and I suffered a lot from sleeplessness.

"I took various remedies for constipation, but only got temporary relief and the other troubles continued to keep me miserable.

"Reading how Vendol was helping so many people all around here, I got some. It seemed to be just what I needed and in one week I was a lot better and now since taking two bottles I am better than for a long time.

"My constipation is relieved and that seemed to stop all the other troubles because I never suffer any more from gas, sour stomach, acid risings or short wind. All the pains have left my muscles and back and I enjoy sound, restful sleep.

Labor Day Starts New Movie Season At Downtown Theatres

Penn, Victor And Regent To Show New Pictures That Will Bring Finest Entertainment To Patrons Of Downtown Movies

According to the management of the downtown theatres, Hollywood is putting it's best foot forward in presenting new movies which will be seen in New Castle during the 1937-38 season.

Among the fine pictures coming to the Penn in the next few weeks are Spencer Tracy, and Luise Rainer in "Big City," Joan Crawford, Franchot Tone in "The Bride Wore Red," Jeanette Mac Donald, Allan Jones in "The Firefly," William Powell, Myrna Loy in "Double Wedding," Gary Cooper and George Raft in "Souls at Seas," Bing Crosby in "Double or Nothing," Irene Dunn, Randolph Scott in "High Wide and Handsome," Marlene Dietrich in "Angel," Joe Penner, Parkyarkarkas, Harriet Hillard, Gene Raymond in "Life of the Party," Ginger Rogers, Katherine Hepburn in "Stage Door," Bobby Breen in "Make a Wish" and many other new productions too numerous to mention.

At the Victor, many outstanding high spots of entertainment are coming soon including such grand pictures as Varsity Show with Dick Powell and Fred Waring and his Pennsylvanians, "The Life of Emile Zola" with Paul Muni; "Prisoner of Zenda" with Ronald Colman; "That Certain Woman" with Bette Davis and Henry Fonda; "Submarine D-1" with Pat O'Brien and George Brent; "Tonight's Our Night" with Claudette Colbert and Charles Boyer; "Heidi" with Shirley Temple; "Ali Baba Goes To Town" with Eddie Cantor; "Life Begins At College" with the Ritz Bros., and, during the season, other big productions with all star casts.

The Regent Theatre opens it's new season with selected pictures headed by such famous entertainment as Ronald Colman in "Lost Horizon," Grace Moore and Melvyn Douglas in "I'll Take Romance," Deanna Durbin in "100 Men and a Girl," Remarque's "The Road Back," many new and exciting Western action pictures with Hollywood's foremost screen heroes and other special picture releases not yet announced.

Hollywood has definitely turned to producing pictures of greater magnitude and finer entertainment value as evidenced by the casts and stories mentioned only in part in the releases of the next few weeks. The fall season promises much in enjoyment for the patrons of the downtown theatres in New Castle.

Olympe Bradna, the vivacious little French dancer, who plays opposite George Raft in Paramount's "Souls at Sea," coming Thursday to the Penn Theatre, believes that American men seem younger than Europeans.

"Maybe it's because American men are happier. They have a carefree way about them that I like."

AT PENN TODAY

FRANCES FARMER
In "Toast Of New York"

Josie Mansfield a fascinating beauty of the post-Civil War period, is torn between her loyalty to Jim Fisk, picturesque railroad baron, who promotes her first big stage opportunity, and her love for Fisk's best friend and business partner. Josie Mansfield is played by Frances Farmer in the new screen drama, "The Toast of New York," and is co-starred with Edward Arnold, Cary Grant and Jack Oakie. Now at the Penn.

A glittering chapter of American history is unfolded in this photoplay. Arnold portrays Jim Fisk, one of the most colorful figures in the gaudy age when the American dollar found itself and burst its swaddling clothes.

SONJA HEINIE SETS NEW STYLE VOGUES

The lovely star of the Twentieth Century-Fox musical hit, "Thin Ice", in which she is teamed with Tyrone Power, tomorrow at the Victor Theatre, has already created a vogue for similar physical attributes in new star material, in preference to the elongated, willowy types of former years.

Miss Heinie is healthy, wholesome, and bubbling with enthusiasm and energy. She is glamorously young, vital and pretty, rather than exotically or anemically languid. She has the charm of the athlete, plus grace and chic vivacity of a sophisticate. She is definitely and charmingly curved rather than boyish of figure. Her figure, personality and talent are models for newcomers to the screen.

Miss Heinie weighs 110 pounds. For a while, before she began her first picture, "One In A Million", she weighed from three to five pounds more, but lost it during the production of that picture. Her constant activity, practicing, and her personal appearance tours, keep her weight down to this figure.

Radiating health, happiness and fresh young beauty, to which are added intelligence and a distinctive talent, the screen advent of the three-time Olympic skating champion marks a new beauty criterion for Hollywood stars.

GENE AUTRY AT REGENT IN THRILLER

Pulse-stirring and charming, "Git Along Little Dogies," Gene Autry's latest action-filled musical western, is a delightfully exciting attraction. The film opens Labor Day at The Regent Theatre.

Seething with thrills, and abundant with excellent songs, "Git Along Little Dogies" is swell entertainment, and is a noteworthy addition to Republic Studios' Gene Autry releases.

The story deals with intrigue and action laid against the digging of an oil well in cattle country. Autry's valiant attempts to protect the ranchers, his humorous and exceedingly pleasant romantic difficulties with lovely Judith Allen, splendid comedy by Smiley Burnette, Willie Fung, top-notch Chinese comedian, and the well-known radio songsters, the Maple City Four, combine to result in entertainment well worth anyone's money.

New Year's To Be Ushered In Sunday Evening

Tifereth Israel Congregation To Observe Holiday For Two Days

RABBI KATZ WILL CONDUCT SERVICES

At the setting of the sun on Sunday, September 5, 1937, the Jews the world over will usher in the holiday of "Rosh Ha-Shonah," or New Year's.

Rabbi Pinchos Katz, leader of Tifereth Israel synagogue of New Castle, announces the following services for orthodox jewry in this section:

Services Sunday and Monday evenings at 7:30 o'clock. The morning services for both days will begin at 7 o'clock.

Rabbi Katz will preach the sermon in English Monday morning at 11 o'clock on "The Message of the Shofar." He will also chant the special prayers and conduct the Musaf.

New Year's, to the pious Jew, is by no means a carefree festival nor merely the beginning of a new period of time; but an occasion for the renewal of hopes and righteous efforts. The exceptional nature of this festival can be seen from its characteristic ceremonies, such as the preparatory month of Ellul, the penitential prayers and customs, and the blowing of the ram's horn called the Shofar, as well as the fact that it marks the beginning of the ten days of penitence. The latter are known as "Yomim Noraim," or "Days of Awe" and solemnity, and culminate in the Day of Atonement.

The holiday of Rosh Ha-Shonah lasts two days, coinciding this year with Monday and Tuesday, September 6 and 7.

The most outstanding feature of Rosh Ha-Shonah is the blowing of the ram's horn, the Shofar, during the morning service. This ceremony gives color to the holiday. The sound of the Shofar startles a pious Jew far more than any instrument imaginable. It reminds him about the past, and warns him about the future. It announces the approach of the Day of Judgment.

Land Bank Loans Used To Pay Debts

Farmers Use Bulk Of Money Secured From Federal Land Bank For Refinancing

Of a total of $639,400 loaned to Pennsylvania farmers through the Federal Land Bank of Baltimore and the land bank commissioner from January 1 to June 30, 1937, it is estimated that $440,402 was used to refinance indebtedness, Franklin A. Glenn, secretary-treasurer of the Lawrence County National Farm Loan Association announced today.

Of this amount spent for refinancing, $117,575 went to commercial banks, and tax lists benefited to the extent of $16,039. Private creditors were the chief beneficiaries and as holders of mortgages and other credit instruments they were paid $294,713.

The purchase of land accounted for $159,248 of the total loaned and $12,893 was spent for general agricultural improvements, he said.

Mr. Glenn said that the farmers of this state are saving thousands of dollars annually by securing long-term amortized loans through the federal land bank at low interest rates, to refinance old obligations that were entered into at higher interest rates and on less convenient terms.

No matter which one carried the pocketbook, the other carries a burden of humiliation.

A TRULY PRACTICAL SERMON

A clergyman, in the course of his sermon, illustrated his point by saying, "You know you plant roses and geraniums in the sunshine, but if you want your fuchsias to grow you must keep them in the shade."

After the service a woman came up to him, her face beaming with pleasure.

"Oh, I'm so grateful for that sermon!" she said, clasping his hand and shaking it warmly. His heart glowed, but only for a moment.

"Yes," she went on, "I never knew before what was the matter with my fuchsias."

Operation of two-year-old Graham Alexander's toy train has been suspended pending replacement of two wheels, an axle and a brake beam. Emergency hospital attendants at Oakland, Cal., after an X-ray examination, reported discovery of the missing parts in Graham's stomach. He will recover, they said.

In order that Ohio fishing and hunting licenses will equal in price those of Pennsylvania, when used at the Pymatuning reservoir, Ohioans who wish to fish or hunt there must pay an additional dollar for either license. Ohio has entered into an agreement with Pennsylvania regulating control of the reservoir, marking the first time in history that state has had a compact with another state for control of wild life and water conservation. Fishing and hunting laws of Pennsylvania prevail over both the 5,000 acres within Ohio's boundary and the 13,000 acres in Pennsylvania.

As an aftermath of a near stampede in demand for admission refunds when living models failed to appear with a motion picture, "Body Beautiful," at an East Liverpool, O., theater, George Mort, a barber, is charged with malicious destruction of 11 upholstered seats. The theater manager said that the barber used a penknife to rip the upholstery. Incidentally, the 250 patrons got their money back.

Utilizing buckets, cans, kettles and washtubs, residents of Pine Hollow, near Sharpsville, carried away gasoline by the hundreds of gallons following a trailer-truck and auto collision. Dr. David P. Boder, psychologist of Lewis Institute, Chicago, told the American Association of Applied and Professional Psychologists at Minneapolis what is wrong with the world today. "Most of us worry to an exaggerated point over little things, mostly fear—fear of an unsuccessful love life, fear of education failure, fear of economical washout," he explained.

This may be a catty story, but did you know the post office department has a flock of felines feeding off federal funds? Years ago quite a number of post offices were having "mouse trouble." A long-forgotten postmaster wrote to a long-forgotten official asking what to do about it. Instructions from Washington were "get a cat." The postmaster got a cat as did others and then arose the problem of footing the food bill. Since there was no food for federal cats itemized in the budget, instructions were to "take it out of miscellaneous." Ever since then the post office pussies have been living off miscellaneous—some of them even getting fat on it.

Starting Fire With Gasoline Is Fatal

ROCHESTER, Pa., Sept. 3.—Sprayed with flaming gasoline, which exploded while hurrying a fire in a cook stove, Edna May, 8, daughter of Mr. and Mrs. Alva McLaughlin of near Hookstown, is in the Rochester hospital with critical burns, attendants reported.

The accident occurred in the kitchen of Mrs. Edward Potts, a neighbor, where the child had gone on an errand. Mrs. Potts was pouring gasoline out of the can into the stove when the blast occurred. Edward Potts also was painfully burned extinguishing the flames.

SEVENTH WARD NEWS

Ready For Show In Ward Park This Evening

Seventh Ward Amateurs Will Perform In Liberty Park For Public Tonight

A large audience is expected at Liberty Park tonight if the weather is right, to see the amateur talent of the ward district perform. Beginning at 7:45 o'clock, the bandstand in the park will be the stage for this gigantic free attraction.

The affair is being sponsored by the merchants of the ward and has received the support of many citizens.

According to the committee, the only thing which will hinder the show tonight will be inclement weather. In case of unfavorable conditions it was announced that the show will be postponed until Tuesday, September 7, which is the day following Labor Day.

A number of attractive cash awards will be presented to the winners, who rate "best" in the decision of the judges.

An efficient committee, representing the merchants, has been working very hard on this program.

In addition to the amateur acts that are competing for prizes there will be a number of amateur dancers, singers, musicians, and the like who will entertain, but will not be in the competition.

New Agent At R. R. Station

G. J. Hervey From Akron Takes Over Duties At Seventh Ward Train Depot

Coming to New Castle from Akron, O., G. J. Hervey began his duties today as joint ticket and baggage agent for the B. & O. and the P. & L. E. railroads here.

Hervey is stationed at the joint station of the two railroads in the Seventh ward, and replaces J. H. Hossler, former agent who retired some time ago. Many friends of Hossler will be interested to learn that he is now residing at Albion, Penna.

Mr. Hervey has spent his entire life working on railroads about the country. He has served the B. & O. line since 1927. His record shows that he is an ex-train dispatcher, operator, and held other railroading jobs before coming to New Castle.

According to co-workers of the railroad, Hervey is a very capable man for the position of agent here. His wide experience will aid greatly in his handling the business of the local depot.

Community Service At Mahoning Church On Sunday Evening

The Men's Chorus from the Hubbard, O., grange will sing at 8 o'clock Sunday night when a community service is conducted in the Mahoning U. P. church.

The minister, Rev. Orville L. Kuhn, will present a Labor Day sermon on the subject, "Christ Makes Over; Christ in the Life of Our Labor Problems."

A program of music both before and after the sermon will be presented by the Hubbard grange chorus, under the direction of Charles Sell of Youngstown, O. This chorus sang in the Mahoning church two years ago to a very receptive audience; all who heard it at that time will want to hear it again.

Outside Activities Help Film Player

(International News Service)

HOLLYWOOD — Marian Marsh knows now that John Barrymore probably was only joking with her.

When she played opposite him in "Svengali," Barrymore told her, "Don't be just another Hollywood play girl. Conduct yourself with dignity befitting a lady and the producers will respect you as one."

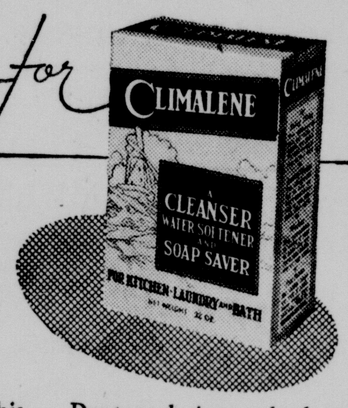

Miss Marsh took his advice and was almost puritanically circumspect in her actions. Of course she missed a lot of fun.

Today she knows Barrymore did not intend his words as she took them. So she is beginning to indulge her love for athletics, she visits night clubs, she dances and swims. Producers have noted her blooming vitally and she is obtaining many film roles.

COW TESTING ASSOCIATION TO MEET

Lauren Thompson, Wilmington township, president of the Lawrence Cow Testing Association announces that the annual meeting of the association will be held in the Agricultural Extension Association Office, New Castle, Pa., Friday, September 10, at 8:00 P. M.

The election of directors for the ensuing year and other business will be transacted at this time.

A program of interest to members will include a discussion by C. R. Gearhart from State College, and moving pictures relating to the dairy industry.

RURAL GROUPS PLAN COUNTY TOURNAMENTS

Lawrence county is one of more than 40 in the state where rural organizations are preparing for a county-wide amateur dramatic and music tournament. The county contest is scheduled for some time in November. Entries, however, must be made to the County Agricultural Extension Office not later than September 20.

This is the seventh year for this type of activity in the state. One of the chief objectives of the tournaments is to encourage the development of local talent in recreation and entertainment programs. The Agricultural Extension Service sponsors the tournaments, provides lists of plays and rules for conducting the contests, and lends copies of plays to the groups.

The group winning first place in the county contest will be entitled to enter the district tournament with other counties.

The rules for the dramatic and music tournaments, together with the list of available plays, may be obtained from the County Agricultural Extension Office, No. 206 Post Office Bldg., New Castle, Pa.

Last year more than 300 rural organizations were represented in the dramatic and music tournaments in the state. With the growing interest in this kind of activity even more groups are expected to avail themselves of the opportunity of developing their own talent and providing their own recreation.

While the committee in charge is attempting to notify all groups in the county by letter, interested local leaders who wish additional information may get in touch with the chairman of the county committee, Mrs. K. K. McCreary, Volant, Pa., R. D. No. 3.

BOYS AND GIRLS LIKE TO HAVE STUDY DESKS

All boys and girls enjoy having their own study desks. Here they can keep their books, papers, and all the supplies needed for studying and writing, reminds Miss Mary Vogle, home economics extension representative of Lawrence county.

These desks can be made easily from old washstands. The only remodeling necessary may be the removing of half of the under shelf board or the lower cupboard doors or drawers to make room for one's feet and knees.

Old kitchen or serving tables painted and covered with a blotter may be transformed into desks. Hanging book shelves placed above these desks make a complete unit.

If floor space is limited, hinge a shelf to the wall and 15 inches above it place a 7-inch shelf to hold books, a file for papers, and a box for small supplies.

Suggestions for the construction of a hanging wall desk may be obtained by writing to Miss Vogle, No. 206 Post Office Bldg., New Castle, Pa.

Such a desk unit not only provides convenient, comfortable places for studying, but also adds an attractive colorful note to any room.

POWER MAY BE SAVED IN CUTTING ENSILAGE

The hum of ensilage cutters will soon be heard throughout the land. The noise usually is an indication of energy going to waste due to the excessive speeds to overcome air friction or because the cutter is running idle.

Few persons realize how slowly an ensilage cutter can be run efficiently at a great saving in the power required. When the speed is doubled the energy consumption increases almost seven times. Old-type machines with large blower pipes have to be run faster than the ones equipped with smaller pipes. The larger fans require less speed. For a 25-foot silo, for example, a 32-inch fan can have a minimum speed of 465 revolutions per minute, a 42-inch, 355 revolutions, and a 48-inch, 310 revolutions.

On the other hand, a higher silo requires greater speeds as the 42-inch fan blowing into a silo 45 feet high should have a minimum speed of 465 revolutions per minute.

The speed factor is much more important with an electric motor where the number of revolutions cannot ordinarily be changed without changing the pulley sizes. Since no power should go to waste, a close calculation of the pulley diameters is desirable. An electric motor can take care of a temporary overload without trouble but it is a good safety measure to protect it with a thermal cut-out in a magnetic type switch in case of steady overloads.

Sharp knives, properly set, reduce the energy consumption. With well-designed cutters many farmers have cut their silage with slightly less than one kilo-watt hour of electricity per ton.

HELP TURKEYS TO CUT DOWN FEATHER-PICKING

Turkeys may start to pick feathers through beak wiping which is caused by sticky mashes that cling to the turkey's beaks and mouths.

Stickiness in mashes may be reduced by coarser grinding of the pasty cereals, such as oats and wheat; by decreasing the amounts of sticky ingredients; or by feeding mashes in non-pastry forms like pellets.

Woven wire stretched near the feeders provides the turkeys with a place for cleaning their beaks. This reduces the beak-wiping on feathers and feather-picking.

Feather-picking may be caused also by an insufficient amount of roughage or fiber in the ration. Mashes can be coarsely ground or in the pellet form, but turkeys which do not have access to good pasture or a liberal supply of fibrous grains, such as oats or barley, are likely to eat feathers to get more bulk into their digestive systems.

Non-sticky mashes and sufficient bulkiness of the rations will help to control feather-picking.

CAREFUL DIGGING WILL PREVENT POTATO INJURY

"I often think how unfortunate it is that the potato is not enclosed in a covering similar to a hen's egg so we would be forced to handle it carefully." This remark made by L. T. Denniston at a meeting of potato growers aptly illustrates an important factor overlooked by most producers.

A study of consumer's preference in the Cleveland potato market made in March, 1936, revealed that only 11 per cent of the samples graded No. 1 or better while more than 40 per cent graded culls. The study was based on an analysis of 143 samples from seven states. On further investigation into the defects contributing to this record of inferior market quality, it was found that bruising alone was responsible for 42 per cent. This study brought out that mechanical injury is not only common but serious to most stocks of potatoes sold.

Few growers realize that more than 13 per cent of the tubers dug are bruised in the digging process, over nine per cent being seriously injured. This damage can be materially reduced through proper adjustment and intelligent operation of the potato digger. Setting the digger point so it runs well under the row, running the elevator at the same rate of speed as the forward travel of the machine, removing the agitator or jump sprockets until soil is carreid over the end of the elevator and on three-fourths of the conveyor, keeping the elevator and conveyor sufficiently tight to eliminate whip, padding all bars and rods on which potatoes fall, and carrying the rear end of the digger as low as possible will reduce the bruising to as low as one per cent under average conditions.

This 12 per cent reduction in bruising will not only add to the growers' net income because of improved quality and corresponding higher grades but will also enhance the retention of that quality when the potato reaches the consumer.

SEED TURF GRASSES AND FERTILIZER IN THE FALL

Areas prepared during the past summer by additions of lime, organic matter, and superphosphate, cover-cropped or not, should now be finally prepared for seeding. Late seedings frequently suffer severely, especially if there is a lack of snow cover as there was last winter.

After the seedbed has been worked until it is fine, firm and level, apply 30 to 35 pounds of a complete fertilizer to 1,000 square feet and rake it into the surface soil about two inches deep. Use fertilizers analyzing 4-12-4, 5-10-5, 5-12-3, or similar analyses. Complete fertilizers invariably yield more satisfactory results than single element materials.

It pays to be particular about the seed mixture used to sow the lawn or the cemetery lot or the athletic field. Many dealers are making a special effort to handle the mixtures recommended by the Pennsylvania State college. The Pennsylvania seed law makes it mandatory for a dealer to publish the purity and germination of a single kind of seed and to display this analysis on the tag. No such requirement is made for mixtures, in which the weed seed and chaff (inert) content is frequently high. To be sure, inspect the tag for the guaranteed analysis. If none is found, it may be better to purchase the seeds separately and to mix them at home.

For a complete list of seed mixtures for different locations, ask at the Agricultural Extension office, 206 Post Office building, for a copy of Circular No. 160, "Lawns".

New Warning For All Americans To Leave Shanghai

(International News Service)

WASHINGTON, Sept. 3.—A new and urgent warning for all Americans to leave war-torn Shanghai immediately, was sounded today by the United States government, as the International settlement was caught in a hail of shell fire between the fiercely-contending forces of Japan and China.

American warships were ordered to take out all Americans who can be persuaded to leave.

Limestone Company Objects To Closing Edenburg's Old Road

County Commissioners this morning received a call from Union Limestone company officials at Hillsville, in which they protested action of the Baltimore & Ohio Railroad company in closing the old Edenburg road which led to the covered bridge, which was torn down following completion of the new viaduct. It seems that the Union Limestone company has a tipple from which Pittsburgh and Lake Erie cars were loaded, and the only means of reaching it is over the old road.

When the viaduct was built it was the understanding that this road be closed, and the request of the Union Limestone company that it be left open puts a new angle to the case which will be investigated by the commissioners.

Can Company Employes, Families Enjoy Annual Corn Roast At Lakewood

Four hundred American Can company employes and their families swarmed into Lakewood Beach late yesterday and last night to enjoy the dinner and sports festivities which marked their annual corn and wiener roast outing.

From late afternoon until midnight the merrymaking held sway.

The dance pavilion and the dining hall had been wired with loud speakers, and as various guests arrived, an announcer welcomed through the speaker system. It served its purpose more efficiently than a reception committee. Everyone relished the fun.

The delicious dinner was served by a competent corps of workers. During the dinner hour the public address system was utilized to furnish music rendered by Canco's own five piece orchestra. The Canco quartet, consisting of Irvin Nickum, Lloyd Harris, Tom Richards, and Frank Perotta, rendered selections.

The following sports events were run off before dinner:

50 yard dash for boys 12 years and under. Winner: Richard Bailey, Jr.

50 yard dash for girls 12 years and under. Winner: Anna Thomas.

50 yard dash for boys 17 years and under. Winner: Gerwyn Thomas, Jr.

50 yard dash for girls, 17 years and under. Winner: Neillie Morris.

Sack race for men. Winner: Gerwyn Thomas, Jr.

3-legged race for men. Winner: G. Thomas and R. Millers.

Egg and spoon race for ladies. Winner: Clara Guido.

Egg tossing contest for men. Winner: Lloyd Harris.

Novelty race for ladies. Winner: Mrs. F. Krueger.

The feature of the sports events was the tug-of-war between the night and day turn workers. The night turn boys were evidently superior in strength as they won the contest: D. Rowe, G. Earl, M. Priscilla, N. Patterson, W. Phillips, T. Richards, J. Murphy, J. DeSanti, C. Styers and D. Duncan.

A special prize was offered by Dr. and Mrs. John B. Foster to the largest family present. This was won by Mr. and Mrs. Morris, who were accompanied by their ten children. Dr. Foster is the plant physician.

After dinner bingo was enjoyed, special prizes being awarded thruout the evening. The amplifying system was used to advantage during the game in calling the numbers and announcing the winners. Richard Morgan called them. The organization is now afraid that he may be called by the National Broadcasting company to carry on in this line.

After the bingo prizes were all awarded, dancing engaged the attention of the gathering. Mr. and Mrs. John Walzer were awarded a prize for the best waltz. Louis Walzer and Anna Alley for the prize fox trot, John Walzer and Mrs. Pagach for the best square dancers of the evening. The square dancing features were especially good. Joe Brooks and Louis Walzer called for these.

Committees serving included:

Executive committee—B. H. Kannenberg and K. B. Norris, chairmen; Miss Cramer, Albert Ellis, H. H. Pearce, W. Schoenfeld, H. E. Pitzer, William Ellis, Gerald Allen, John Russo.

Bingo committee—Richard Morgan, chairman; William Richards, I. Nickum, W. Mann.

Dance and music committee—Merle Brooks, chairman; C. Brinkner, John Russo, G. Earl.

Serving committee—M. Panella; chairman; J. Miles, J. DeSanti, I. Eardley, T. Richards, J. Murphy, R. Bailey, J. Morris, D. Guido.

Shanghai Cable Lines Severed

(International News Service)

SHANGHAI, Sept. 3. — Communications out of Shanghai were entirely dependent upon wireless transmission facilities today following rupture of all cable lines leading out of this port.

Chinese officials declared the Japanese navy had severed all lines of the Great Northern, Eastern Extension and Commercial Pacific companies in what they termed a "wanton act of destruction."

News dispatches are being sent by wireless to Hong Kong, where British-operated cable lines still are functioning.

Snake Dies After Biting Young Man

(International News Service)

KALAMAZOO, Mich., Sept. 3—Larry Tetzlaff, 18, nationally known snake trainer, can take it—but the deadly cottonmouth moccasin which bit the youth last week can't.

Tetzlaff, who received emergency treatment for the snake bite at a hospital, is recovering at his home. Yesterday, the snake died.

LOS ANGELES—Judge Knight, in cutting down Alice White's request for alimony, explains Hollywood is not what it seems: "Back in Pottstown, Pa., and Hoisington, Kan., they think members of the film colony all live in luxurious homes and everything is milk and honey. I've found that is not the case."

Well, did anybody expect Roosevelt to appoint a supreme court justice who wouldn't agree with him?

Makes Visit To Accident Victims At Columbus, O.

Accident Victims From New Castle Showing Improvement In Columbus

Thursday evening, James Dufford, Arlington avenue, returned from Columbus, O., where he had gone to see his mother, who was injured in an automobile accident near that city recently.

Those who were in the accident from here include Mrs. J B. Dufford, Rev. W. W. Sniff and Mrs. Ralph Logan. According to James Dufford, his mother's injuries are a great deal more serious than the first report stated.

She sustained a compound fracture of her shoulder, and is attended by two physicians daily. She was taken to a bone specialist Thursday afternoon to have the shoulder set. It is expected that it will require three weeks before Mrs. Dufford will be able to return.

Rev. Sniff was also injured rather severely. He is still confined to his bed but is getting along very nicely.

Mrs. Logan was the most fortunate of the group, she only receiving minor cuts and bruises. She returned to her home here with Dufford last evening.

According to a report of the accident, it occurred between Danville and Utica, O. The New Castle car was rounding a very sharp curve which is known in that district as an exceedingly dangerous stretch of road.

The local machine which was being driven by Rev. Sniff was struck by another car going in the opposite direction. Both cars were badly wrecked, but the occupants of the other machine escaped any serious injury.

Mrs. Dufford is now at the home of her sister, Mrs. Mary Yoders, 369 Miller avenue, in Columbus.

ATTEND LABOR DAY WEEK CELEBRATION

Temple Israel Plans Services For New Years

Reform Jewry To Have Rosh Hashanah Services Sunday And Monday

At sundown Sunday begins Rosh Hashanah, the Jewish New Year. For Reform Jewry it ends at sundown the next day but for Orthodoxy it continues through Tuesday. It falls on the first day of the Hebrew month of Tishri. According to tradition, on this day God considers every individual in the world, carefully weighing the merits and shortcomings of his deeds. It is a sort of judgment day when each one tries to set himself right before God. The Fatherhood and universality of God is emphasized, since He draws no distinction between nations or religions as He sits in judgment.

The chief ceremonial feature of the day is the blowing of the Shofar, the ram's horn. In ancient times, the blast of the horn was thought to drive away evil spirits. The Jewish sages, however, explain its use as reminding us of the intended sacrifice of Isaac by Abraham and the substitution of the ram. To those who hear the blasts, there is a mystic influence in its shrill, penetrating notes.

In about the tenth or 11th century, the symbolic ceremony of Tashlich, casting off, arose. After the afternoon service of the first day, the congregation would go to the edge of a running stream to recite a ritual, concluding with "May God cast our sins into the depths of the sea." The men would shake the ends of their coats and sleeves, as though brushing off their sins. The custom survives to this day among orthodox elements.

Services at Temple Israel are scheduled for Sunday evening at 8 o'clock and Monday morning at 10. Rabbi Norman H. Diamond will preach and officiate at both services.

Young People's Day At Plaingrove U. P.

Attractive Program Planned For Sunday Morning At 10 O'clock

The annual Young People's Day will be observed at the Plaingrove United Presbyterian church on Sunday morning at the hour of the regular worship, 10 o'clock. There will be special music by Miss Mildred Brown and a mixed qquartet consisting of Harold Connell, bass; Campbell Fulton, tenor; Mildred Brown, soprano; and Laura Brown, alto. Ida Peebles will lead in the responsive scripture. Prayers will be offered by Helen Sankey, Hugh Marett, James McKissick and Gertrude McKissick. Agnes Peebles will give a missionary address. Clyde Adams, president of the Young People's Christian Union will preside. Louella Pollock and Isabel Adams will act as ushers.

The service is especially for the young people away during the winter. Clyde and Isabel Adams attend Slippery Rock State Teachers College, Wylie Fulton is a sophomore at Bob Jones College at Cleveland, Tenn., Ida and Agnes Peebles will study at Pennsylvania State College, Louella Pollock will matriculate in Erie Commercial College in Erie, Pa., Frank Otremba is in the U. S. Navy and is in the Panama Canal Zone at present and Edward Otremba will join the U. S Navy September 7. James Pollock will work in Butler, Laura Brown is employed in New Castle. Mildred Brown will teach in the public schools of Bellvue and sing in one of the Pittsburgh choirs, and Gertrude McKissick will teach in a Scott township school.

He doesn't get a diploma for proficiency in one subject. And if he ranks high enough to have a capacity for gratitude, he also has a capacity for generosity.

God Requires Social Justice

"Brass Tacks" On The Sunday School Lesson

The Golden Text

Luke 6:31—"As ye would that men should do to you, do ye also to them likewise."

By DR. ALVIN E. BELL

(The International Uniform Sunday school lesson on the above topic for Sept. 5 is Leviticus 19:1-18, 32, 37 especially verses 9-18, 32-37, the Golden Text being Luke 6:31, "As ye would that men should do to you do ye also to them likewise.")

What more appropriate subject for our study on this "Labor Sunday" than the subject ::Social Justice." And it is interesting to note that we study it in the light of God's word embodied in the Mosaic code nearly three and a half millennia ago. Fundamental principles embodying, essential truth do not change with the passing of centuries. "Equal Justice Under Law" is the slogan engraved over the entrance to the magnificent new temple of the supreme court in our national capital. That word "Equal" would make doubly sure that justice is dispensed impartially to all social classes.

Holiness Basic To Justice

God goes down to bed rock for the foundation of social justice when he demands that it be based on holiness: "And Jehovah spake unto Moses, saying, Speak unto all the congregation of the children of Israel and say unto them, ye shall be holy; for I, Jehovah your God, am holy." We are to partake of the likeness of God we worship. Our strongest argument for the incentive to holy living is God's holiness. Our deed must become our creed; our ethics must accord with our religion.

Spiritualizing Sociology

Thus through 21 varying social relations beginning in the home and reaching outward in ever widening circle, God"s nature is held up to match in all of our dealings with him and our neighbor: "ye shall fear every man his mother and his father.....I am Jehovah your God." And when ye reap the harvest of your land, thou shalt not wholly reap the corners of thy field, nueither shalt thou gather the gleaning of thy harvest....Thou shalt leave them for the poor and for the sojourner; I am Jehovah your God." Poor relief is not the concern of a distant and impersonal government; it is the heart to heart concern of every man for his needy neighbor, willing to share as God has shared with him.

Industrial Justice

Industrial justice is sought through the same high appeal: "Ye shall not steal; neither shall ye deal falsely, nor lie one to another....I am Jehovah. Thou shalt not oppress they neighbor, nor rob him; the wages of a hired servant shall not abide with thee all night until the morning. Thou shalt not curse the deaf: nor put a stumbling block before the blind, but thou shalt fear thy God; I am Jehovah. Ye shall do no unrighteousness in judgement: thou shalt not respect the person of the poor, nor honor the person of the mighty; but in righteousness shalt thou judge they neighbor....Thou shalt not take vengeance, not bear any grudge against the children of thy people; but thou shalt love thy neighbor as thyself. I am Jehovah.. Ye shall do no unrighteousness in judgement, in measure of length or of weight or of quantity....Just balances, just weights shall ye have: I am Jehovah your God, who bought you out of the land of Egypt." Just wages, just working conditions, just service for wages paid, just treatment of both employer and employe by the other, just regard for the rights and welfare of one another—all these may be realized among us only as we pattern our conduct after the holiness and love of God, and for his sake love our neighbors as ourself.

AROUND CITY HALL

Apparently there has been a misunderstanding as to where the city would use the steam shovel which Purchasing Agent Jos. D. Alexander has been authorized to rent for excavation purposes. The writer rested under the impression it was to be employed in Crawford avenue but Street Director B. F. Butler corrected this impression today. He said the shovel would be used on other streets where the city had projects and men would be released from other projects to work in Crawford avenue. Owing to this arrangement it will not be necessary for street car company officials to move their trolley wire in Crawford avenue

City Officials will be in the Labor Day parade, it was stated today at city hall City building will be closed. However, police and firemen will be on duty as usual.

Ford cars wil be turned in as part payment for the new cars have had a long siege of operation. When the cars were used for cruising on two of the eight hour turns their average monthly mileage was approximately 3,000 each. The cars were in service 16 months.

Steel Men's Lingo Puzzle To Outsiders

Colorful Language Of Steel Mills Holds Special Meanings For Workers

(International News Service)

NEW YORK—"The keeper says to turn the water off at the jumbo and open up the bleeder" suggests the kind of order that might be heard around the elephant run of the zoo, but actually it is the language of a steel mill.

Translated into everyday English by the American Iron and Steel Institute, the order means "The man in charge of this blast furnace says to shut off the cooling system at the spout through which the molten slag runs, and open up that valve to relieve the pressure within the furnace."

The colorful lingo of steel workers assigns special meanings to many common words, producing phases unintelligible to most visitors to steel mills. Many of the devices and products of the industry are named after animals.

"Pig" Iron Development.

"Pig" iron, so called because at one time iron was cast into individual blocks by running the molten metal from the blast furnace into large trenches from which extended, like a litter of suckling pigs, dozens of smaller trenches, has become a generally used term for blast furnace iron. A "sow" is the main trench from the furnace, while "motherless pigs" are blocks of iron cast into individual molds.

"Bears" are sometimes "horses" in the steel industry, both terms being applied to the infusible mass of cinder forms on the blast furnace hearth. The "bug" or "fly" is the small ball of steel which usually forms on the nozzle of a ladle, interfering with the pouring of a stream of molten steel.

"Goose eggs," sometimes called "snow flakes," are small silvery spots visible when bars of alloy steel are broken. They indicate internal strains and tears. A "cat's eye" is a bubble of gas in molten crucible steel.

"Monkeys" and "Snakes"

"Monkeys," both long-tailed and short-tailed, "snakes" and "rat tails" are other queer names for various devices used in steelmaking.

Not zoological in origin are the terms "pulpit", "bosh" and "necking", all of which are in everyday use in steel plants. A pulpit, in steel terminology, is an elevated platform on which the control apparatus of rolling mills is situated. When a steel man says "bosh" he is not using one of the mildest of expletives, but is referring to the widest part of a blast furnace stack.

Even the word "necking" has a special meaning to steel men, who use it to describe how a bar of steel stretches and thins out like a piece of pulled taffy when it is pulled apart in a strength testing machine.

Man is undeniably a queer creature. No matter how many years he has lived, he is invariably astonished when it gets hot in the summer.

Birth Record Set In Jersey City

(International News Service)

JERSEY CITY, N. J., Sept. 3.—Mrs. Loretta Ruschman and her two married daughters held something in the way of a birth record here today.

Last Thursday, Mrs. Louise Rutherford, 22, the eldest daughter, gave birth to a boy. Mrs. Ruschman followed suit on Friday.

On Saturday, Mrs. Irene Hampton, 18, the youngest daughter, gave birth to a girl.

Italian Court To Rule Legality Of Medium Made Will

Will Of Deceased Made By Medium Now Being Considered By Courts

(International News Service)

ROME.—The Italian Supreme Court for the first time in its history has been called upon to decide the legality of a will, made under "orders from the beyond" through the use of a medium.

Eugenio Calilli with his friend Lorenzo Casavola acting as medium, "received orders" from his deceased wives to leave almost all his patrimony to the medium himself.

After the death—thirty years ago continual touch with her through Casavola.

He depended so much on her will that it is stated he married her sister, Anita, after having been "notified" that his late first wife thought it would be "a wise thing to do."

Medium Continued Active

Shortly after the marriage Anita died, but Calilli kept in touch with her as well as with his first wife—always through the medium, his friend.

All business transactions were guided by Anita and Maria Calilli always scrupulously following their advice.

Upon Calilli's death in 1933 it was found his testament had been "dictated" by his defunct wives. He had been told to leave his two sisters Oronza and Maria penniless, Calilli wrote.

The medium, apparently in great favor with the two wives received the larger part of the estate amounting to about 2,000 dollars, while the Bishop of Lecce was givene a sum to be spent in prayers "for the souls of Maria and Anita."

Sisters Oppose Will

Notwithstanding the fact that Calilli might be considered a perfect example of loyalty, his two sisters opposed the will charging that he was mentally incapable.

The Court of Appeals, however, decided that "spiritualism cannot termines insane and abnormal psychological functioning."

The Bishop of Lecce, it is stated, intends insisting on the validity of the will on this basis.

The Italian Supreme Court's decision in any case is expected to clairvoyance circles.

Sharon Pastor Will Be Mission Speaker

Cousins is pastor of the Oakland Ave. Methodist church, Sharon, is well known here and always has a message that is enjoyed by those who hear him. There will be special music. The service begins at 8 p. m. Plans are getting under way for the 25th anniversary which will begin on Sept. 26 with the Spiritual Jubilee Singers of Chicago.

Recovers From Auto Accident Injuries

Severely bruised and shaken up when her coupe and a Cleveland truck-trailer collided along Route 224 outside of Bessemer this week, Mrs. Dorothy Thellman, employed at the Bell Telephone company here, is recovering at her home at 408 West Washington street.

Mrs. Thellman was at the wheel of her car when the accident occurred. The truck driver, in spite of the fact that his huge truck upset, escaped injury.

NOTICE!

to the Shopping Public Of New Castle And Vicinity

In line with the modern trend of all businesses to reduce the number of working hours of their employees, and to facilitate compliance with the recently passed Pennsylvania 44-hour law, the Retail Merchants of New Castle have set the following store hours:

WEEKDAYS 9:30 A. M. to 5:30 P. M.

SATURDAYS 9:00 A. M. to 6:00 P. M.

Effective Tuesday, Sept. 7th

We know that our friends and customers will not object to the slight change in their shopping habits which this action will occasion, when it is remembered that the principal beneficiaries are our employees.

For years retail store employees have been subject to the long Saturday hours. They have borne this sacrifice willingly. With the shortening of hours of work in other industries however, permitting ample time to shop during the daylight hours it was felt that necessity no longer existed for the Saturday night shopping period.

Our employees, as you can imagine, are grateful for the action which has been taken, and on their behalf as well as ours we respectfully ask your acceptance of these new store hours. We realize and expect that some merchants will attempt to take a narrow competitive advantage of this new schedule, and thoughtless of the interests of the men and women employed in their stores, continue or even extend the present long Saturday. There is nothing which this body can do about that.

It is with you, Mr. and Mrs. Shopping Public, that the decision rests. And we feel confident that your answer will be on the side of liberality and humane working conditions.

SIGNED,

"Iron Lung" For Pittsburgh Girl

May Need Another "Iron Lung" For Another Infantile Paralysis Victim

(International News Service)

PITTSBURGH, Sept. 3.—The grim "iron lung" tragedy which claimed the life of one child in Denver today cast a shadow over Pittsburgh.

The only "iron lung" in Pittsburgh or within a radius of several hundred miles is being used to keep nine-year-old Eleanor Harris alive, while in the next room doctors anxiously waited to see whether a boy of similar age would need the respirator. Both are infantile paralysis victims.

"We are hoping and praying that the boy's condition will improve," said Dr. W. M. Petty, chief resident physician of the children's hospital here. "If he should need the respirator we don't know what we would do."

JAPAN RAISING FUNDS

(International News Service)

TOKYO, Sept. 3.—A third supplementary budget, totalling 2,022,000,000 yen, was announced today by the Japanese finance ministry as the nation resigned itself to a possible long conflict with China.

The funds will be raised by a bond issue. The measures, observers predicted, undoubtedly will be passed by the Diet without amendment next week.

Mother Of Twelve Confesses She Killed Husband

(International News Service)

PRAIRIE DU CHIEN, Wis., Sept. 3.—A bizarre story of "Tobacco Road" depravity in the Wisconsin backwoods was told here today by the mother of twelve children as she confessed the slaying of her husband.

The women is Mrs. Edward Heisz, 38, whose husband was found yesterday in their almost inaccessible upcountry farmhouse with his face blown away by a shotgun blast.

She was lodged in the Crawford county jail while Sheriff Oliver White checked her version of the killing. Mrs. Heisz, the sheriff said, admitted she fired the fatal shot because her husband made bestial demands upon her and two of their eldest daughters.

John Dachko, Jr. Buys Airplane

Well Known Local Airplane Pilot Added To List Of Local Ship Owners

Adding one more name to the rapidly growing list of airplane owners in New Castle, John Dachko, Jr., of 109 Wilder avenue, purchased a Taylor cub.

The ship formerly belonged to Findley C. Wilson, also of New Castle.

The ship is a bright red-orange Taylor Cub, flown from the local airport on the Youngstown road many times. According to Dachko he will use the new airport when it is completed, but until that time his plane will be placed at another field.

Dachko is very well-known for his flying activities in and around New Castle. Earlier this year he was awarded his private pilots' license by the department of air commerce.

WASHINGTON, Sept. 3.—The case of Frank R. McNinch, recently appointed chairman of the Federal Communications commission, to liberalize and, in effect, "clean out" what has proved to be an unsatisfactory body, is a peculiar one.

Commissioner McNinch is, in reality, transferred from the Federal Power commission, of which he was chairman, to his new post. He did such a good job at keeping the power commission "up to snuff" that it is assumed he can do equally well as chairman of the communications commission. No doubt he can.

Let us glance at his record.

* * *

IN HOOVER DAYS

Early in President Hoover's administration the Federal Power commission was not what it is now.

It consisted of the secretaries of war (then Patrick J. Hurley), the interior (Ray L. Wilbur) and agriculture (Arthur M. Hyde. These cabinet members were too busy with other duties to give much attention to power questions. Things virtually were run by the commission's permanent staff, which power liberals, like Senator George W. Norris, accused of being, mainly, very sympathetic toward private power interests. They said the commission's decisions all favored private power. Also that Secretaries Hurley, Wilbur and Hyde were not a bit public minded, either.

On the permanent staff, however, was one individual who was vehemently pro-public. This was Charles A. Russell (since dead), the commission's solicitor.

* * *

RUSSELL WINS LAW

Russell fought like a wildcat for a law creating an independent commission.

Naturally he was unpopular among his associates. Finally they succeeded in crowding him out. He found a new place as legal adviser to New York state's power authority, and was such when Mr. Roosevelt was governor. But he went on campaigning for a similar, independent, national power authority.

At last he won. The law was passed.

The new, independent commission was to consist of five members—three of one major party, two of the other. That is to say, it was to be bi-partisan.

* * *

McNINCH APPOINTED

President Hoover, as expected, named three Republicans. The liberals asserted that all were "pro" private power. He named a Democrat. The liberals described him as "pro" private power, too. Still, they passed muster.

Then the president named McNinch of Charlotte, N. C.

This, the liberals declared, was too much.

In the first place, they denied that McNinch was a Democrat. They admitted that he had been one, but he had, they testified, bolted the Al Smith ticket in 1928, and became a Hoovercrat. They likewise insisted that he had, as a lawyer, been affiliated with private power.

* * *

CONFIRMED

Josiah W. Bailey had just been elected to the senate, as a North Carolina Democrat. He wasn't in office, but he was to be sworn in soon. He rushed to Washington to oppose McNinch's senatorial confirmation.

Southern Democracy did its best to beat him—as no Democrat and as a bitter reactionary.

Nevertheless, against furious opposition, he was confirmed.

Liberal power-ites almost wept.

* * *

TURNS OUT TO BE LIBERAL

Yet, as time passed, it seemed to me that his voice on the commission was uniformly in favor of what might be termed a Norris-esque interpretation of power policies.

I consulted various power liberals.

"Yes," they agreed, "'Mac' surprises us. Blamed if he isn't on our side."

In due course McNinch graduated into the commission's chairmanship. About this time I chanced to meet Charles A. Russell, previously perhaps the fiercest McNinch enemy of them all.

"I was mistaken," he confessed. "'Mac' is as good a liberal as I ever knew."

* * *

HE IS JUDICIAL

WAS he a conservative once?—enough to be so recognized in President Hoover's conservative regime?

Or was Hoover mistaken? Was he a liberal all the time?

Or has he changed?

A liberal sometimes turns conservative, but a conservative seldom turns liberal.

Or is he yet a conservative at heart. He doesn't seem so.

Upon contact, he is judicial at present. He has to be so. He cannot take sides. We shall see.

And President Roosevelt thinks so highly of him that he has assigned him to "clean up" the federal communications commission.

Judge (to amateur yegg)—So they caught you with this bundle of silverware. Whom did you plunder?

Yegg—Two fraternity houses, your honor.

Judge (to sergeant)—Call up the downtown hotels and distribute this stuff.

Bull fighting is said to be the oldest existing sport.

Group Opposes Having Saloon' Near Plaingrove

Temperance Rally Called For Sunday; Group Wants Township Dry

A public temperance rally for the Plaingrove township community will be held at the Plaingrove United Presbyterian church at 8 p. m. Sunday. Miss Margaret Peebles will preside and introduce the speaker. Miss Peebles is the president of the Plaingrove W. C. T. U..

The speaker will be C. R. Davis, an attorney of New Castle. The liquor interests are said to be planning to place an open saloon in the Plaingrove township community and have filed a petition with the authorities for this purpose. The temperance people are opposing this and are urging the voters who believe in a sober community to go to the polls at the coming election and defeat the proposed license for liquor.

Correct this sentence: "I fool the people when necessary," said the benevolent dictator, "but I never kid myself."

TUGWELLTOWN COST IS HIGH

Initial Estimate Was $5,500,000 — Actual Cost Is Placed At $14,227,000

(International News Service)

WASHINGTON, Sept. 3.—A $5.90 per room rental figure for the Roosevelt administration's greatest experiment in low cost housing, the government-built 885 family model city at Greenbelt, Md., were announced today, eighteen months after the original scheduled opening date.

Known originally as "Tugwelltown," after Rexford Guy Tugwell, Greenbelt stands, Uncle Sam $14,227,000 against initial estimates of $5,500,000.

If all goes well, barring floods or other disasters, the amortization set-up placed in operation after the government wrote off $5,829,000 as labor expenses, land reserves and the like, the model city will pay for itself in 133 years.

Why be surprised by what the labor board does? It isn't supposed to be a capital board.

MAY START PAINTING MAIL BOXES SHORTLY

Painting of New Castle's 150 street letter boxes and receptacles will probably commence within a week, Postmaster Richard A. Steen reported today. He expects to hear from Washington, D. C. in a few days the name of the successful bidder for the work.

A man told a friend that he was running for an undertaker, as his wife was seriously ill.

"But," remonstrated the friend, "it's no' an undertaker you want; it's a doctor."

"Na, na," was the reply. "I canna afford to deal wi' middlemen."

DiMaggio Homers As Feller Trims N. Y. Yankees, 4-2

Giants Pick Up Game In National As Dodgers Top Cubs Once Again

PITTSBURGH WHIPS PHILADELPHIA, 11-8

By PAT ROBINSON
International News Service Sports Writer

NEW YORK, Sept. 3.—Bob Feller, the 18-year-old Iowa farm lad, has begun to show a nice return on the Indians' investment in him and by next season should be ready to take his place among the stars of the game.

A little more experience and a little better control is all he needs to make him a stand-out. He showed his wildness again yesterday when he issued seven passes but he also demonstrated that he still has his blazing fast ball by fanning an even dozen Yanks while holding them to five hits. Anybody who can fan a dozen Yanks must have something riding on his high hard one.

Joe DiMaggio spoiled a shutout for the young man when he poled his 39th home run but Bob came through with a 4-2 decision.

Hank Greenberg, the Tigers' big bomber from the Bronx, moved up in the home run derby by blasting his 31st and 32nd circuit wallops, the second one beating the Senators in the tenth, 9-8.

The White Sox took a pair over their Red Hosed brethren, 4-2 and 10-8. The first game was unique in that half the White Sox's eight hits were homers—two by Berger and one each by Kreevich and Walker—and these accounted for all the Chicago runs.

The A's tightened their hold on seventh place by turning seven hits off Walkup and Hennessey into a 5-3 verdict for Kelley.

The Giants picked up a game on the Cubs by nosing out the Cards in the tenth, 5-4, while the Cubs were again blowing one to the Dodgers in the 11th, 4-3.

McCarthy hit two homers for three of the Giants' runs and Mel Ott's 30th round tripper tied the score in the eleventh. Three successive singles then stowed it away.

The Dodgers pounded Bill Lee for 13 hits but offset their hitting by typical Dodger base running. They tied it up in the eighth and won out in the ninth when Big Al Butcher, scoring his second victory in a relief role in as many days, won his own game with a single.

The Pirates scored five in the ninth to down the Phils, 11 to 8, Arky Vaughan celebrating the birth of a daughter in California by driving in the tying and winning runs.

The Reds and Bees were idle.

The choice of many particular men.

Radiator Team Ends 10th Year

Local Softball Team Wins 50, Loses Three And Is Deadlocked Once

Fifty victories, three defeats and a tie. This is the record made by the 1937 National Radiator softball team which walked away with honors in the City Softball League.

Starting the season with a defeat, the Rads captured 47 straights before losing another battle. Ever since the Rads were introduced into softball, 10 years ago ,they have always been among the top notchers. The Rads have played for six titles, winning 4 and losing 2. Playing three game at Johnstown, last Sunday, the local aggregations captured the first two and then lost. This marked the second time the Rads played three battles on one day.

According to figures released today by Secretary Fred Marcella, Nickie Ross was the batting star of the team, followed by Eddie Hilton. Jackie Llewellyn was third. Gabby DeCaprio, Dundo Ambrosia, Peachy Fornataro, Frank Stone, Austin Cowmeadow, Joe Mazzari and Sammy Copple all batted over the 300 mark.

Considered better than Hop Rodgers, Andy Beres, Frank Babs, the great Bishara, Bob Pascarella and Irv Rubeis is Greg Ross who pitched in 39 battles, winning 34 and losing 5. This will stand for years to come. One of the most important triumphs was a 1-0 count over the Mechanicals, Mahoning county champs.

According to reports, prospects for the 1938 Radiator teams are bright. Bleachers may be built at the Rads field next year.

HERE AND THERE IN SPORTS' LAND

Fans who turned out to see the first of the series between Bessemer, Lawrence County Baseball league champs and the All-Stars did not regret their trip to George Washington junior high school field. They witnessed a very classy game. The second tilt of the series will be played at Bessemer, Saturday afternoon and a large crowd will travel to Bessemer. Bessemer has a splendid team and the All-Stars also played tight baseball yesterday.

Bob Latera has received a letter from Jimmy Dunn, now with Eddie Simms and Chuck Detman, the latter a middleweight, at Los Angeles, in which Dunn reports Simms lost by a decision his first fight but won his six others, all in seven weeks. Dunn claims there is all kind of work for fighters on the Pacific coast. He paints such a fancy picture of the west that Latera says he intends to pack his bag and take a trip to the coast.

Shattering par by six strokes to equal the course record of 67, Ralph Guldahl, national open champion and Ray Mangrum of Pittsburgh, tied for the lead at the end of the first round Thursday in the 72-hole $5,000 Hershey open tournament.

Charlie Mort, flashy backfield man of New Castle high, will enter Slippery Rock Teachers school this fall according to Merle McIntosh. No doubt Mort will make the football team. Slippery Rock has an interesting schedule this fall.

Two ex-champs, Jim Braddock and Max Baer will box at Madison Square garden, New York, October 29. It was Jim who outboxed Baer and won the heavyweight title to lose it later to Joe Louis.

West Pittsburg To Play Mahoningtown

West Pittsburg will try for its seventh consecutive victory when it opposes Mahoningtown tonight at 5:45 o'clock, on Ryantown field.

Dombeck or Hill will take the mound for the West Pittsburg. Rainey or Russo will likely pitch for the Seventh Warders.

Camp Season Ends Saturday Noon For Hurricane Gridders

New Castle High Squad Prepares For Trek Back To City

SEASON OPENER IS WEEK FROM TONIGHT

One week of intensive drills, held mostly under a boiling sun, will come to an end Saturday noon for 37 husky football warriors, candidates for positions on the 1937 New Castle high school eleven.

Following an early morning workout, the gridiron aspirants will pack up their moleskins and leave behind the beauty of Muddy Creek Falls which has been theirs this week.

Sunday will be another rest day for the squad after which the gridders will invade the greensward of Taggart stadium to prepare for the opening game of the season Friday, September 10, with Har Brack high as the foe at Taggart stadium. Coach Bridenbaugh and his assistants have programmed a list of strenuous drills for next week in preparation for the "curtain raiser".

The rehearsals at Muddy Creek this week have given the New Castle ace mentor an opportunity to scout his material. Bridenbaugh is tight lipped, more so than ever. If he has uncovered any "finds" its a secret. Last year's vets, Russos, Dumbroski, Sovesky, Nocera and Palkovitch, reported to camp in the pink of condition. Around these five gridders will be built this season's Red Hurricane machine which faces one of the toughest schedules in the history of New Castle high sports.

With the exception of these veterans and a few lettermen from last year's squad, the remainder of the candidates is inexperienced. However, there are several junior high grads who look good. Scrimmages throughout the week have proved profitable to Bridenbaugh and his staff. Albert Piccuta, a guard, of Mahoningtown, looks promising.

Froms Pittsburgh district come reports that the Har-Brack club shapes up well. The visitors are coming along at a fast clip. The curtain lifter is anticipated to be fast, judging from early reports.

Bessemer Wins From All-Stars

Snyder Is In Fine Form And Champions Win Three To Nothing

Bessemer, champions of the Lawrence county loop, is one up on the All-Stars, Bessemer having blanked the aggregation piloted by Jewie Coen, 3 to 0, on Washington field yesterday. The second of the series will be played at 3:30 p. m. at Bessemer, Saturday.

Snyder pitched for the champions. He was touched for four hits. He was never in trouble. Coates started for the All-Stars. He was found for five hits, which coupled to four walks, allowed Bessemer three runs. He was relieved by Ostrosky.

The game was fast and errorless. Fifteen hundred fans watched the tilt. The game was well handled by Umpires Red Keller and Leo Hill. It is likely that D. Updegraph or Brinko will pitch for the All-Stars and Hardesty for the champions in the second game. Any of the All-Stars who do not have transportation to Bessemer Saturday should report at 2 p. m. at the Sport Goods Store.

Picking Winners Proves Farcical

Sport Writers Not Only Persons Who Make Poor Stabs

DEMPSEY, LOUGHRAN AND OTHERS WRONG

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, Sept. 3.—Offered neither in defense nor in excuse for what happened the other night when Joe Louis had to go fifteen rounds with Mr. Thomas Farr, of England, to the consternation of all the boxing writers, I would like to point out today that we, who write about boxing, are not of necessity supposed to know about it. The point is that apparently nobody knows about it up to and including the referee of the contest in question, Mr. Arthur Donovan.

I can also quote such eminent authorities as Mr. Jack Dempsey, Mr. Tommy Loughran, Mr. Max Schmeling and Mr. Will McCarney. They quite apparently didn't know what was going to happen the other night, because they made statements that didn't reconcile in the least with the facts.

The point, therefore, resolves itself into the question as to whether a boxing writer can be expected to know his game if boxing itself doesn't. I can only state in this connection that referee Donovan who, by the peculiar nature of his position, was closer to the bout than anybody in the house saw Farr winning only one round of the fifteen, which was a joke.

If Farr didn't win at least five, then what we witnessed the other night at the Yankee Stadium was a gavotte between W. C. Fields and the Four Marx Brothers.

Fighters Wrong Also

What I'm trying to say is that, admitting that boxing writers often seem very comical in attempting to forecast results, the people who really should know are equally farcical. Personally I thought Farr was a pretty good fighter whose style figure to bother and even baffle Louis. But who was I to argue with Mr. Dempsey for instance?

He went down and looked at Farr and decided the fellow wouldn't do at all. Privately and off the record so as not to bother the receipts, he said Farr didn't have a chance. That really impressed me, with the result that I didn't dare offer my own opinion in contravention of his. Of course, too, we had Schmeling.

"An absolute bum" was his verdict on Farr and again you thought that these were men whose opinion were too much for your own. Loughran was quoted as saying something of the same thing, his word having weight not only because of his ability in the ring but because of the fact that he had engaged in a ten round fight with the subject under discussion.

I should have been warned of Mr. Loughran but actually I wasn't, probably due to an inherent sense of personal inferiority. He, for instance, was the gentleman who sat alongside of me at the Schmeling-Stribling fight in Cleveland and called each of the first six rounds for Stribling. I'll admit Stribling was well ahead at this point but not even his parents would have conceded him all of these rounds.

In other words everybody thinks we the sportwriting profession, silly. But boxing itself is silly.

Tennis Greats At Forest Hills

National Championship Of The Tennis Singles Is Now Underway

(International News Service)

FOREST HILLS, N. Y., Sept. 3.—The national championship of the tennis singles was ready to go out of its paddock and into its dance today with the delayed appearance of its arch-principals, Don Budge and Baron Gottfried von Cramm. Today also was to produce for public inspection Jadwiga Jedrzejowska, the lady from Poland, and Bobby Riggs of Los Angeles, for the first time.

All were to appear in the second round of the combined men's and women's championships, thus giving the event an air of distinction it obviously lacked yesterday.

Budge, seeking his first national championship after a triumphant return from abroad with the Davis cup and Wimbledon championships, was to meet William V. Inslow, Jr., South Orange, N. J., in a match that hardly figured to extent the California redhead.

Von Cramm faced equally innocuous opposition. The latter was to be furnished by Alfred L. Jarvis, Tenafly, N. J., the blonde baron hence making his first appearance in singles on the American continent. Hailed by Bill Tilden as the greatest stylist in the game, Von Cramm's appeal to the public was heightened by his dramatic five-set match with Budge in the Davis cup series abroad.

Miss Jedrzejowska, generally recognized as the favorite for the women's title, also drew an easy opponent. The latter was Evangeline MacLemman of Decatur, Ga. In the same division Helen Jacobs, four times champion, who yielded the title last year to Alice Marble, will go into action in the second round against Helen Bernhard, New York.

Riggs, who came through the first round yesterday while Budge and Von Cramm were drawing byes, will meet Gene Mako, doubles partner of Budge, in the second round today.

Juvenile sensation of the tournament to date, Riggs yesterday won in straight sets from Bill Mogehee, New Orleans, while Frank Parker, Davis cup player, was running thru William Gillespie, Atlanta, with even greater facility. Gillespie won only three games in three sets.

The second and third foreign seeded stars also won without trouble. They were Heinrich Henkel of Germany and Jiro Yamagishi, of Japan, the latter winning from Charley Carr, Los Angeles, in straight sets. Henkel defeated Russell Bobbitt, Atlanta, in a match that was only close in the second set where Bobbitt carried the German 7-5.

Miss Marble, beginning her defense of the title, won from Jacqueline Horner of France in straight sets but received surprising opposition, indicating a stormy passage for the blonde Californian the rest of the way.

(International News Service)

BUTLER, Pa., Sept. 3—After defeating Beaver Falls here 11-4 Butler today held the edge in the battle for the championship of the Penn State Association by winning the first three games in the series. Butler scored five runs in the second inning to sew up the game.

CYCLONES WIN AGAIN

Cyclone A. C. softball team romped off Lehigh field with a well earned 19-7 victory over the Red Top A. C. yesterday. Fazzone and Ciambotti poled out homers. The Cyclones have won 38 games and dropped but two. They claim the Midget title. The Cyclones also trimmed the Russos three times and Millers twice.

Guldahl, Mangrum Pace Golfers At Hershey Tourney

Lead Field With Card Of 67; Mangrum Nearly Sets New Record

(International News Service)

HERSHEY, Pa., Sept. 3.—Ralph Guldahl, Chicago, U. S. open champion, and Ray Mangrum, Dayton, O., former Pennsylvania open title-holder, paced the classy array of golfers today — each had a card of 67—as the fifth annual $5,000 Hershey Open entered the second day.

The par shattering performances of Guldahl and Mangrum equalled the course record set by defending champion, Henry Picard, Hershey pro. Seventy-three is par over the trick Hershey Country Club course where the three-day grind for the lion's share of the prize money is being held.

Mangrum narrowly missed setting a new record for the course when he got a "bad roll" on an 18-inch putt on the last hole of the 18-hole route which would have given him a 66 if he had cupped the ball.

Stock Market Rallies Today

Vigorous Rally At Opening; U. S. Steel Starts Two Points Higher

By LESLIE GOULD
International News Service
Financial Writer

NEW YORK, Sept. 3.—The stock market reversed the pronounced weakness of the last 3 days with a vigorous rally at the opening today. Grains ran to 2 points in leaders but the upturn exhausted itself quickly as buyers failed to follow up prices. The list then turned dull and held at levels somewhat under early highs.

Steels were leaders of the rally as they had been in the van of the decline. U. S. Steel started 2 points on 2,000 shares. Republic was up almost as much and gains of a point and more were scored by Bethlehem and Youngstown. Gains were cut later.

The hard-pressed rails scored early gains running to more than a point and held most of the advance. Chrysler rose over a point.

Oils and utilities were fractionally better.

High-priced issues gained easily. Westinghouse and Johns Mansville rose 2 each. Neither Allied Chemical nor DuPont appeared in the first hour. Douglas advanced over a point in aviations. Amusements and rubbers were strongers. Sears Roebuck gained 2 in the merchandising division.

The old National bank of New Brighton has filed an amicable scire facias at the prothonotary's office to revive a judgment in the case of Mary E Meeks. The amount is $350.

There is likely to be some weeping and wailing and the gnashing of both natural and store teeth among the constables of Lawrence county if they are compelled to abide by the provisions of the revised election laws, with reference to constables at election precincts. It has always been the custom to pay constables $5 for guarding the poles against foreign or other invasions while the great electorate is casting ballots. In cases where there are more than one precinct in the constables bailwick, it has been the custom of the constable to appoint a deputy for each precinct. The deputies also drew $5 for their valuable services. In looking over the new election laws yesterday, County Commissioners Clerk W. A. Eakin discovered that no provision is made for paying either the constables or deputies As constables work on a fee basis, it is a question whether they can be compelled to attend elections without pay. It is also a question if any deputies can be secured to serve without pay.

Stanley Kaczmarcz has filed a suit at the prothonotary's office against James Mike, in which he demands $5,259.55 from Mike for injuries received when struck by Mike's truck at the intersection of South Jefferson street and Long avenue. According to the plaintiff he had started to cross South Jefferson St. when Mike swung his truck around from Long avenue and knocked him down. Kaczmarcz was injured about the right side, spine and internally. He was off work for some time and was put to expenses amounting to $259.55. A capias calling for $1000 bail by defendant was issued with the filing of the suit.

There is likely to be some confusion at polling places at the coming primary, owing to additional polling places, which have been created in some of the wards and changes which have resulted. Changes have been made in the first ward, where there are now four precincts; in the third ward, which has six districts; fourth ward, which has eight; fifth ward, which has four, and eighth ward, which has three. Persons living in these wards should acquaint themselves with the place where they are expected to vote, so that no confusion will arise on election day.

Under the new election laws the county commissioners are not required to pay for polling places located in school houses, fire stations, municipal buildings, or rooms in other public buildings. Heretofore, the county has had to pay for these places. Just who will perform the janitor service necessary in cleaning up the places after election is not made plain. The wiseacres who revise the election laws seems to be good forgetters, when it comes to details.
